

TURKEY APPEALS TO POWERS AGAINST ITALIAN ATTACK

Would Save Tripoli From Seizure By Help of Neighbors.

NO OVERT STEPS YET

Boycott Against Italian Goods in Orient Proposed.

CONSTANTINOPLE, Sept. 25.—The Porte has addressed a circular to the Turkish representatives abroad in-structing them to investigate the good offices of the powers with a view to restraining Italy from hostile action in Tripoli. The grand vizier has abandoned his projected European holiday. A more tranquil feeling prevails, as it is now known that the reported landing of Italian troops in Tripoli is untrue. The Porte has postponed sending the transports with war material to Tripoli. Orders have been given to the Tripolitan authorities to avoid doing anything calculated to disturb good relations or give Italy pretext for hostile action. It now appears that it was the agent of a steamship company and not the Italian consulate which ordered the Roumania and other Italian vessels back to Italy. It is understood that if Italy proceeds to occupy Tripoli, the Turkish plan of campaign will include the suspension of diplomatic relations, the closing and sequestration of all Italian government property, post offices and schools in the Ottoman empire and the proclamation of a boycott against Italian goods, financial establishments and shipping.

TARIFF BOARD TO REPORT AT ONCE

President Taft Declares Congress Can Act This Winter.

KANSAS CITY, Sept. 25.—Returning to Missouri tonight, President Taft addressed the third annual National Conservation Congress in the convention hall here. After the regular delegates were seated, the doors were thrown open to the public and soon the giant hall was unable to accommodate those who struggled to obtain admission. The President's speech was statistical in its nature and called attention to the urgent need of conserving the farm lands. He predicted that the "back to the land" movement would be larger during the next ten years. Improvement of agricultural education was urged as a solution of the problem of increasing the food supply.

While the soil is being stripped of its fertility under present farming methods, said the President, he is not of the opinion that the time will ever come when the United States will be unable to feed its own people. Toward the end of the President's address, a man in the audience arose, and waving a red handkerchief over his head, shouted: "What's the matter with Teddy?" Taft stopped his speech until the man had been quieted by the police. President Taft arrived here tonight after spending a busy day in southeastern Kansas, making addresses at eleven little towns. The President was tired but happy over the warmth of the reception the progre-ssive Kansans had given him. The crowds during the day were the largest the President had faced during any of his travels. Excursion trains and farmers in automobiles and rigs had swelled the population of some of the cities to twice the normal figures.

Taft continued his speech largely to the voters of the woolen, free tariff and cotton tariff bills. He gave his heartiest understanding that he was more than willing to sign any bill reducing the tariff if founded upon the report of the tariff board. This he heard, the President said, would be ready to report on the woolen schedule the first of December. His statement on this point set at rest the report that there would be a delay. "I believe that this present woolen duties are too high," he exclaimed and applauded. "I shall get as soon as I get adequate information. I shall recommend their reduction." Taft began the day at Coffeyville and spoke also at Independence, Cherokee, Chanute, Humboldt, Jola, Garnett, Ottawa, Edgerton and Olathe. The President appeared on the back platform and waved to the station throngs at Carlisle, the home of General Funston, Colony and several small towns. He was on the go from 7:30 a. m. until the arrival here at 6:30 a. m. tonight.

KANSAS CITY, Sept. 25.—Lightning struck the St. John's Catholic school in Kansas City, Kan., today, throwing 150 children into a panic. The building was shattered and the heavy bell fell to the ground, killing within ten feet of a group of children which had just left the building. Blinded by the flash and frightened by the trembling of the building, the children rushed for the doors and windows. None was seriously injured.

CONVICT ADMITS ROBBERY STAGE IN FRESNO COUNTY

(Special to the Republican.) AUBURN, Cal., Sept. 25.—After being sentenced to serve fifteen years in San Quentin prison for burglarizing C. Frederick Kohls' summer cottage at Lake Tahoe, Peter Hoff confessed to Sheriff McAulay that he at one time held a stage in Fresno county and got \$5000 in the raid, and at another time shot and wounded a Chinaman and secured several hundred dollars from him. Hoff refuses to make known where he hid the bulk of the articles he stole at Tahoe. The value of the hidden articles is about \$4000. Hoff is consumptive and probably will not live to finish his present sentence.

COUNTY GAME ASSOCIATIONS TO BE STARTED

(Special to the Republican.) SACRAMENTO, Sept. 25.—The California Fish and Game commission has inaugurated a system for organizing local game and fish protective associations in all counties of the state. They will be voluntary organizations for the protection and propagation of fish and game, and members will put up a fee of 25 cents. This will go into a fund to be deposited with the State treasurer. County and state conventions of the members will be held and these local organizations will work with the commission to prevent abuse of hunting and fishing privileges, educate people to the necessity of observing the game laws and to devise legislation.

NEW COST SYSTEM CONSIDERED FOR STATE PRINTER

Board of Control Planning to Run Office at Less Expense. Inquiry Into School Text Book System Is Continued.

(Special to the Republican.) SACRAMENTO, Sept. 25.—An announcement was made by the state board of control today that scientific management will be introduced in the state printing office so that it will be possible to tell just what it costs to put out a given piece of work. The state board of control is co-operating with State Printer Shannon in installing a "cost finding" system, and to this end has employed J. P. Donham, who with his brother, Robert Donham, evolved the "Donham Method." He began work today aided by an account from the State Board of Control who will spend five months in the state printing office, and by the end of that time it is expected he will thoroughly establish the cost finding system as an adjunct to the accounting system of the state printing office.

SAN FRANCISCO, Sept. 25.—W. W. Shannon, state superintendent of printing, appeared before the board of control and the senate investigating committee, which is conducting an investigation of the affairs of his office, here today. Theodore Roche, attorney for the board of control, questioned Shannon at length regarding his qualifications for the office, particularly in the selection of school supplies. The state printer objected to the opening of the investigation at this time, asking that he be given more time to examine the records of his office bearing upon the matters under consideration. Attorney O'Garra, representing Theodore Roche, of the Zellerbach Paper Company, and Attorneys Carroll Cook, W. Hoff Cook and Bert Schlessinger were present, the three representing Senator Shannon of the senate committee.

The other members of the senate were Senators N. W. Thompson and E. H. Strobridge, the latter presiding. Letters were read from John P. Gilmarin, an employee of the H. S. Crocker company, tending to show that Shannon had been urged by the writer to do all possible to defeat the proposed legislation favoring supplying school children with free text books. Shannon, accused of having worked against this bill, which was introduced into the legislature of 1905, deflected the accusations. Another communication, this one from Abe Ruef, was read to refute Shannon's denial that he had had differences with George D. Graham concerning a political subject. Ruef's letter asked Shannon to settle the differences with Graham, if possible. Shannon denounced the reading of the letters and asserted that the state board of control had been tampering with the private and personal correspondence. SHANNON CONTRADICTED. Questions concerning the difference in quality of material used in the state printing office cost of producing text books for the school occupied the greater part of today's hearing. Shannon said that a charge of \$125 and \$150 an hour for printers and proofmen's time in estimating the cost of text books, when at the same time the workmen had received only 55¢ a cent an hour for the work, was made to account for the idle time which could not be charged to any particular expense account as an item.

D. D. Sullivan, foreman of the state printing office, contradicted Shannon, and asserted that every moment of

FIFTEEN MAGONISTS KILLED IN FIGHT IN NORTHERN MEXICO

Four Captured By Maderist Force in Two Days' Battle

LOOTING IN SONORA

Uprising of Escobozas Becomes Mere Marauding.

BROWNSVILLE, Texas, Sept. 25.—Fifteen Magonistas were killed and four were captured in a battle with a Maderista force which began Saturday at the Santa Rita ranch near Columbus, Mexico, and continued through yesterday, according to a wounded soldier brought to Matamoros tonight.

NACAO, Ariz., Sept. 25.—Isidro Escobozas, who is at the head of a force variously estimated between 40 and 300 men and who has announced his resort to arms because of the alleged illegal election of Senator Gayou as vice governor of Sonora, is now somewhere between Arizona and Chihuahua with his men.

Arrivals from Arizona today tell of Escobozas' raiding parties, committing many depredations and securing much loot. These arrivals here state Escobozas' band is rapidly deteriorating into plain desert bandits. They are said to be subsisting upon food supplies and cattle seized from the ranchers.

One hundred and forty government troops left Chihuahua last night for the vicinity of Escobozas' camp.

JOHNSON TALKS AT RIVERSIDE

RIVERSIDE, Sept. 25.—Governor Hiram W. Johnson was greeted here tonight by a large audience. He spoke at the Loring opera house on the referendum and recall and also for the passage of the amendments to the California constitution to be voted on at the coming election. He said it was necessary that these amendments be carried in order to complete the "house cleaning" of his administration and as a protection against possible errors in future administrations.

The Governor, while advocating the passage of all the twenty-three amendments, specially referred to those affecting the referendum and recall, and urged the people to see to it that these were carried.

POSTPONEMENT OF ELECTION REFUSED

MEXICO CITY, Sept. 25.—Mexico's Presidential election will be held October 1st, the date fixed by official decree. Petitions for postponement were rejected tonight by the Senate and by the chamber of deputies. In both houses the majority against delaying the election was large, that in the chamber being 148.

GLANDERS EPIDEMIC NOW IN LOS ANGELES

LOS ANGELES, Sept. 25.—Glanders, which caused the health authorities of Pasadena to shut off all water supplies to public troughs of that city, has now appeared in Los Angeles. A building at 419 Molino street, the ground floor of which is a stable for a dozen horses and the upper floor housing the quarters of several Chinese, has been quarantined. One horse suffering with the disease has been shot. Dr. W. H. Rowland, county veterinarian, said the disease was easily transmitted to human beings and in such cases it was nearly always fatal. and at the moment being watched by guards.

FRENCH NAVAL DISASTER AWFUL IN ITS DETAILS; DEATH LIST EXCEEDS 350

Explosion of Battleship Liberte Probably Due to Defect in Ammunition---Other Warships Damaged

TOULON, France, Sept. 25.—More than 300 officers and men of the French battleship Liberte lost their lives today when the ship was torn apart and totally destroyed in the harbor here by an explosion of her magazines. The battleship Republique was badly damaged and the battleships Demourges and Verite suffered heavily from the masses of twisted iron and armor plate hurled upon their decks. This is the greatest disaster that has ever befallen the French navy and in magnitude is almost without precedent in the annals of the world's fighting ships. The explosion which wiped out one of France's most powerful battleships, occurred at 5:55 o'clock in the morning. It was the result of an outbreak of fire. The flames spread rapidly in spite of all efforts to extinguish them and reached the magazines before there was time to flood them. The magazines exploded with tremendous force, causing death and destruction in every direction. While the naval authorities estimate the killed at 300, it is feared this figure will be exceeded. It will be necessary to go through the ship's muster rolls, a task of days, before a full list of the victims can be prepared. Several men already have been taken alive from the torn and twisted mass of wreckage and the hope is strong that others may be reached. Exactly from what cause or where the fire broke out has not yet been established, but it is believed that it had smoldered for hours. Of the vessel's full complement of 742 men, Captain Jaures, brother of the Socialist leader, and the second officer in command, both ashore on leave, as also were 104 officers and men. The command of the ship devolved on the senior lieutenant, who perished.

AID FROM OTHER SHIPS

The twisted upper works of the battleship were protruding from a mound of wreckage, among which struggled the seamen from the rescuing boats that had been sunk by the dying debris or sucked down in the mudflats. The work of rescue began quickly. An ambulance station was installed in the arsenal and Admiral Arin-Darbel, maritime prefect, went out to the wreck and superintended the work of extricating those imprisoned under the wreckage. FORTY BODIES RECOVERED. The first body recovered was that of an officer, which was hauled from under an evening forty bodies had been taken out and ninety-four injured transferred to the hospital. Electric shears to cut through the plates and a powerful floating crane to lift the masses of steel were used in conjunction with divers who were at work exploring the interior of the hull.

This afternoon the Liberte appeared as if her bows had doubled over on to the stern. Men buried in that part of the wreckage above the water could be heard groaning and screaming for help, which often the rescuers were unable to give. The lower deck was a heart-rending sight. One man had his foot held under a mass of steel weighing tons. After three hours' vain effort to lift the mass, a surgeon amputated the foot. Through a hole in the armor, portions of bodies contorted and piled together could be perceived, all of them charred by the flames.

One of the survivors, a warrant officer, who came out of the hurricane of fire with only a slight cut on the forehead, telling of the disaster to night, said: "The fire started in the general store, among cans of oil, turpentine, paint and other inflammables. In spite of every effort the flames reached the coal bunkers, and after that it was difficult to prevent them from gaining the powder magazine. It was about 5:50 o'clock when the disaster occurred. Assistance was then being sent from the port and three other warships lying in the harbor. "Just when the whole ship's crew seemed to have reached the boats in the confusion, there was another explosion. The Liberte was hurled over on her side, and the fore part, where the full force of the explosion was felt, lurched forward heavily with an appalling crash."

SAN FRANCISCO ELECTION TODAY

Rolph and McCarthy Both Confident of Winning Mayoralty.

SAN FRANCISCO, Sept. 25.—San Francisco will hold its municipal election today under the direct primary law tomorrow. There are six candidates for the mayoralty, but only two, P. H. McCarthy, the present incumbent, and James Rolph Jr., are conceded to have any chance of election. The total registration is 101,000, but some of the names were registered two years ago and 18,000 sample ballots have been returned to the election registrar, the post office being unable to deliver them. It is estimated that the total vote cast will approximate 73,000.

The leading mayoralty candidates have been campaigning for several weeks and on the eve of election both express confidence of a successful outcome. In a signed statement, James Rolph Jr., said: "I have put up the cleanest fight that is in me and am confident of success. I am not worrying over the result. The people have told me in unmistakable terms that I must win, and I believe that when the votes are counted Tuesday night I will be elected by a substantial majority of several thousand votes."

Mayor McCarthy said: "I will win at the primary and my majority will be in no uncertain terms. If all the voters come to the polls on Tuesday, which would be something new, I am confident I will receive between 42,000 and 45,000 votes." By the terms of the direct primary law any candidate receiving a majority vote at the primary is thereby elected and will not be voted for at the general election.

While Rolph does not estimate, in his statement, the number of votes he expects to receive, his advisers assert that he will have a substantial majority and estimate his vote at close to 45,000. This authority concedes McCarthy about 26,000 votes. There are 14 candidates for supervisor, with eighteen to be elected. Extraordinary precautions have been arranged to prevent fraudulent voting and tampering with ballots.

ELGIN, Ill., Sept. 25.—Canada's failure to ratify the reciprocity agreement was declared the chief reason for an increase of one-half a cent a pound in the price of butter on the Elgin board of trade this afternoon. The present quotation is 20 1/2 cents.

nineteen minutes nothing was visible but the top works. For a few minutes after the final explosion an intense black cloud of smoke hovered over the harbor. When it shifted, a horrible spectacle met the eyes of the people of Toulon, who, awakened by the first explosion, had hurried to the shore. The twisted upper works of the battleship were protruding from a mass of wreckage, among which struggled the seamen from the rescuing boats that had been sunk by the dying debris or sucked down in the mudflats. The work of rescue began quickly. An ambulance station was installed in the arsenal and Admiral Arin-Darbel, maritime prefect, went out to the wreck and superintended the work of extricating those imprisoned under the wreckage. FORTY BODIES RECOVERED. The first body recovered was that of an officer, which was hauled from under an evening forty bodies had been taken out and ninety-four injured transferred to the hospital. Electric shears to cut through the plates and a powerful floating crane to lift the masses of steel were used in conjunction with divers who were at work exploring the interior of the hull.

This afternoon the Liberte appeared as if her bows had doubled over on to the stern. Men buried in that part of the wreckage above the water could be heard groaning and screaming for help, which often the rescuers were unable to give. The lower deck was a heart-rending sight. One man had his foot held under a mass of steel weighing tons. After three hours' vain effort to lift the mass, a surgeon amputated the foot. "Just when the whole ship's crew seemed to have reached the boats in the confusion, there was another explosion. The Liberte was hurled over on her side, and the fore part, where the full force of the explosion was felt, lurched forward heavily with an appalling crash."

"The greater part of the ship's boats with the rescuers and the men from the Liberte sank instantly. BUGLER'S ESCAPE. "After the explosion, an enormous fragment detached from the bows of the Liberte and other pieces of iron fell on the Republique, smashing the bridge and plunging between the decks. The bugler of the Liberte was hurled through the air from his ill-fated ship to the deck of the Republique where he was picked up badly hurt. In his hands he still held the bugle with which he was sounding the alarm."

All the boats that surrounded the Liberte were engulfed in the whirlpool caused by the sinking ship. They vanished amid the despairing cries of the crew. It is now considered almost established that the disaster was due to the deflagration of "B" powder, as in the case of the Tena. Towards 5 o'clock the watch perceived a dense smoke coming from the fore part of the ship. He reported this to the officers, who promptly ordered that the magazines be flooded as a first precaution. The men whose duty it was to open the sea valves returned precipitately, saying that it was impossible to carry out the orders on account of the thick poisonous fumes rising from the magazines. EFFORTS TO ESCAPE. Word of the danger flew from mouth to mouth. Men rushed to the boats or jumped into the sea. At this juncture, help arrived from the other ships and the officers of the Liberte decided to make another effort to conquer the fire. The bugler was ordered to sound the rally. The spirit of discipline was so excellent that the men who had jumped overboard asked the boats which picked them up to put them back aboard the Liberte.

Some idea of the violence of the explosion may be gained from the fact that the ship commander, the gunnery school officer Foudre, anchored three kilometers (1.86 miles) from the Liberte, was killed on his own quarter deck by a fragment of shell hurled from the Liberte, and two sailors standing beside him were wounded. There was a toll call of the remnant of the crew on board the other battleship Suffren tonight. The scene was pitiful, as many of the men were injured and most of them were in tears. Experts are of the opinion that the fire on the Liberte was not the cause, but the result of the explosion. Eye witnesses say that it was not until after the minor explosion that smoke was seen issuing from the ship.

A ferry boat with more than a hundred workmen on board was nearly involved in the disaster. As it was nearing the Liberte smoke and flames were observed from the battleship and the captain immediately reversed the engines, removing his boat from the danger zone.

CONSERVATIONISTS ASSEMBLE FOR DISCUSSION; TAFT TALKS

Saving of Land, Forests and Children All Considered.

NEEDS OF FARMERS

Judge Lindsay of Denver Deplores Cityward Movement.

KANSAS CITY, Sept. 25.—That the conservation movement is making rapid progress in the country was made apparent today when representatives of a dozen states made brief verbal reports at the opening session of the third national conservation congress.

The audience heard of steps to conserve everything from land to children. Mrs. Holland C. Day spoke in behalf of Idaho, whereupon Governor Hilday, who was presiding, made a remark about woman suffrage. This was a cue for Mrs. Day, and rising, she said: "Woman suffrage is sweeping over this entire country."

Her remark brought prolonged cheering from several hundred women in the audience. TAFT'S SPEECH. President Taft's speech tonight was devoted almost exclusively to the conservation of the soil. The President explained that at last year's session of the congress in St. Paul he had expressed at length his views with regard to other phases of conservation and added that since Congress up to date had not deemed it necessary to pass conservation legislation, he would confine himself to the one branch of the subject.

Taft reviewed the history of farming and farm production in this country and added that since conservation is a fifty-year job, he declared that while he does not agree with those men who say that in fifty years the United States will be unable to feed its own people, there is need of immediate understanding among farmers of the trend of events. Much inspiration is given this move by a force of 3000 men to be held partly by the counties, partly by the states and partly by the federal government, who shall conduct experiments in every county for the education of the farmer, the President said. "The conservation movement is a new thing," he said, "and it is not until after the conservation movement is well advanced that we can expect to see such collaboration. He could not conceive of a wiser plan for this particular purpose.

Judge B. B. Lindsay of Denver at the afternoon session pleaded for better conditions for the child and decried the "cityward movement" of boys and girls from the farms toward the city. Other speakers today were Henry Wallace, president of the congress, Governor Hilday and J. B. White, a member of the executive committee.

SOCIALISTS SPLIT ARIZONA DEMOCRATS

Nomination of Separate Ticket May Give State to Republicans.

PHOENIX, Ariz., Sept. 25.—The Socialists of Arizona held a convention here today and placed a full state ticket in the field. It is headed by W. P. Galentine of Globe, leaders of the Globe Miners' Union. Much inspiration is given this move by the Socialists, and it is acknowledged that their alliance with the labor party will draw many votes from the older organizations. In the last constitutional convention the labor delegates invariably supported the Democrats, and it is claimed in the forthcoming state election the Socialist ticket will draw heavily from that ticket and make the issue between them and the Republicans more than ever in doubt.

HENEY SPEAKS ON THE AMENDMENTS

VALLAJO, Sept. 25.—Francis J. Heney spoke before a largely attended meeting here tonight, his subject being the "Initiative, referendum and recall." The meeting was held under the auspices of the direct legislation league. The speaker advocated support of these proposed amendments to the state constitution and his remarks were applauded.

SAYS HER HUSBAND WEIGHS FIVE TONS

LOS ANGELES, Sept. 25.—Despite his weight of five tons as set forth in the description furnished by his wife, the police of Los Angeles and Santa Barbara sought in vain today for J. D. Warner of Los Angeles.

## FRESNO FAIR BOOSTERS MAN IS FOUND DEAD

### ARE TO VISIT MANY TOWNS TODAY

Large Number of Machines to Carry Party; Leave at 8 O'clock.

Directors Preparing Track for Speed Events of Fair Week.

The directors of the Fresno Fair association and a number of other interested people will leave Fresno this morning on the first of the boosting expeditions to town in and bordering on Fresno county. A large number of machines will be in the party and a brass band will also be on hand to herald the arrival of the boosters at the different places.

The boosters will leave Fresno at 8 o'clock this morning and the first stop will be the Scandinavian school. They will leave the school at 8:30. The leaving time for the other towns is as follows: Clovis, 9:15; Jefferson school, 9:30; Sanger, 11; Reedley, 2; Dinuba, 3; Parlier, 4; Del Rey, 4:30; Madera, 5. The boosters will stop at Reedley for lunch between 12 and 1 o'clock.

Secretary Libhart announced yesterday that 25 head of registered Holsteins

**Dr. Lyon's PERFECT TOOTH POWDER**  
Neutralizes the destructive acids of the mouth—cleanses, preserves and beautifies the teeth, and imparts purity and fragrance to the breath.

**Protecting Your Eyes**  
If you want to have good eyes in your old age, you must take care of them when you are young. If you neglect them until they become too badly impaired, nothing that can be done will restore them to their normal condition. Now is the time to give them the attention they demand.

Believed to Have Fallen From Platform and Struck His Head.

James Jenkins, who for the past year had been employed at the Miller-Lux ranch, was found dead yesterday morning near the depot at Oxalis. It is thought that while under the influence of liquor he fell off the platform and was instantly killed. Sunday night he drew his money and said that he was going to Mariposa county to visit his parents. Nothing was seen of him until yesterday, when his body was found by the side of the railroad track near the depot platform. His head was injured, leading to the belief that in falling he struck his head on a rock. The platform is four or five feet above the ground. Jenkins is about 45 years of age. His body was brought to Fresno at midnight and the inquest will be held this morning. Deputy Coroner J. D. Stephens went to Oxalis yesterday afternoon to obtain the testimony of several witnesses.

will be entered for the fair by R. F. Guerin, owner of the Sunnyside herd of Vashas.

**REPAIRING TRACK**  
In preparation for attempts at record breaking performances during the racing events of the fair, the track is now being put in the best shape in its history. In working over the lower turn yesterday it was discovered that falling away of the inner bank had made the inside line of the track too far out, and had therefore made it about one second slower to the mile than it should be, because of the increased distance that the horses have to travel. A man was immediately put to work, cleaning out the debris that had choked the turn and in another two days the driver can safely hug the hub fence all the way round the course.

This care is being taken especially because of the attempt that will be made by Omer Durley of Copa De Oro, 1:59 pacer, to beat all records for the mile.

**EXPECT 3 YEAR OLD**

Then it became known yesterday that the fair people expect another horse here that can step off a record performance beyond a shadow of a doubt. While the matter is being kept more or less quiet until a final message has been received from the owner, it is declared that this phenomenon is a 3 year old that has gone the mile in 2:03 1/4, while the world's record for the age is 2:05 1/4. Thus, it is declared two world's records may be hung up during the show here.

Further, it was determined yesterday that Friday of fair week shall be designated in part as Bakernfield day. This is to be one of the biggest days of the whole, most because of the fact that the crowning feature will be one of the two milks of fireworks display. And, with the fine race feature, the fireworks are one of the two biggest things to be pulled off during the fair.

It became known yesterday that the poultry show which is to be conducted in connection with the fair here will be the only one in Fresno this winter in all probability, as it is declared here to concentrate all the things where the most people will see them. The show will be moved further over from the pavilion and will be better and more attractively placed than ever before.

**THE VERY BEST TIME TO take Doctor Pierce's Golden Medical Discovery is now.** If you feel that your blood is out of order. Don't wait until you have to cure disease. It is easier and better to prevent it. When the first blotches or eruptions of the skin, weakness, and depression that are signs of the symptoms, you need this medicine. It will rouse every organ into healthy action, thoroughly cleanse and repair your system, and build up needed flesh, health, and strength. It's the only reliable blood remedy. In the most stubborn skin or scalp affections; in the worst forms of Scrofula; in every disease caused by a torpid liver or impure blood—it never fails to benefit or cure.

No substitute urged by a tricky dealer, though it may be better for him to sell, can be "just as good" for you to buy. Constipation causes many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

**Don't Hug a Delusion**

Something "Just as Good" an Impossibility—If Not the Original Have Nothing at All.

For a woman to adorn her head with false braids, puffs and rats, or a man to wear a toupee, is like buying an off-brand hair preparation instead of Newbro's Herpicide. The "false hair" and the "off brand" are both substitutes for the real thing. The original is always conceded to be better than any imitation or substitute. "Something just as good" is a heresy of the roughest kind.

Newbro's Herpicide is the original remedy and does as promised. Years of success and thousands of satisfied users have made it standard. Herpicide kills the dandruff germ, keeps the scalp clean and stops falling hair. Its proper use before baldness appears makes false hair and wigs unnecessary.

There is no uncertainty. The purchaser gets positive results or money is refunded. It is sold and guaranteed by all druggists.

Applications may be obtained at good leather shops and hair dressing parlors. Send for in postage for sample and book on "The Care of the Hair," to The Herpicide Co., Dept. R, Detroit, Mich. San Joaquin Drug Company, Special Agents.

**Healthful Home Drink**

Horstford's Acid Phosphate makes a healthful and invigorating drink with water and sugar only. An invaluable tonic, a delightful beverage and one of the best restorers when the energies flag and the spirits droop.

**Horstford's Acid Phosphate**  
Non-Alcoholic

## ENDEAVORERS ARE TO HAVE RALLY ON 8TH

State Officers Will Be Present at Meeting in This City.

Announcement was made yesterday that three state officers, including State President A. W. Johnson of San Francisco, will be present at a Christian Endeavor rally which will be held here October 8th, and is to be the largest event of its sort yet held in this city. Afternoon and evening of the 8th will be filled with various features of an elaborate program that is now being mapped out by the committee in charge.

The afternoon will be devoted to intermediate and junior work, talks on the last national convention, and many other topics. In the evening, the talks will be of a more general nature, and will include forecasts of the 1912 convention. The evening rally is to be joined in by all of the churches of the city in which there are Christian Endeavor societies. They will dispense with their evening services for this purpose. All the young people's societies of this city are to be invited to take part in this rally.

## SUFFRAGISTS TO HOLD MEETING ON THURSDAY

Will Plan Last Steps of Campaign Here for Amendment 8.

To arrange proper work for the equal suffrage amendment at polling places and to secure something like uniform and organized action among friends of the amendment, a meeting of all those interested will be held at 8 o'clock Thursday evening in the lecture room of the Unitarian church, corner O and Voluume streets. The decision to hold this meeting was reached at a meeting of the officers of the Woman's Suffrage League of this city, held Sunday afternoon.

Among things planned are work to get as many voters as possible out to the polls, enlightenment as to the amendment in question—number 8, forming of a committee of women to be near the polling place in each precinct, to "help" the men decide "far" or "no" and also to show that women really are interested in the question at stake. Some short addresses will be made at Thursday's meeting and plans submitted for discussion.

## ROBBERS SHOOT AT SPEEDING AUTOISTS

**STOCKTON, Sept. 25.**—After successfully robbing two buggy occupants on the lower Sacramento road today, two masked highwaymen attempted to hold up an auto party consisting of R. H. Devinsky, a prominent grape grower, and two neighbors. Upon being commanded to halt, Devinsky sped up his machine. Two shots were fired at the machine by the highwaymen and whizzed past the frightened autoists. They succeeded in escaping from the scene without loss or injury.

**CHINESE MUST SERVE HIS TERM FOR MURDER**

**SAN FRANCISCO, Sept. 25.**—The Supreme Court affirmed a judgment of the Superior Court today, sentencing Ah Fook, a Chinese, to fifteen years in the penitentiary for a murder committed more than seven years ago. Ah Fook was accused of having murdered Chin Hong, another Chinese, on the Zuck ranch, near Gilroy, May 10, 1904. The delay in the sentencing of Ah Fook was due to appeals taken on technical grounds.

**COTTON MARKET DECLINES.**  
**NEW YORK, Sept. 25.**—There was a further big decline in the cotton market today with prices making new local records under liquidation of long accounts and continued heavy selling. Cotton contracts were actively sold, selling off to 10.12, or 35 points below the closing price of Saturday while later deliveries broke almost as badly and sold from 29 to 35 points net lower.

## GAS, DYSPEPSIA AND INDIGESTION GOES

Makes Your Disordered Stomach Feel Fine in Five Minutes.

You can eat anything your stomach craves without fear of indigestion or dyspepsia, for your food will ferment or sour your stomach, if you will take a little Diapensin occasionally.

Your meals will taste good, and anything you eat will be digested; nothing can ferment or turn into acid or poison in your stomach, and you can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and Gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other agents.

Headache from the stomach are absolutely unknown where this effective remedy is used. Diapensin really does all the work of a healthy stomach. It digests your meals when your stomach can't. A single dose will digest all the food you eat and leave nothing to ferment or sour and upset the stomach.

Get a large 50-cent case of Paper's Diapensin from your druggist and start taking now, and in a little while you will actually brag about your healthy stomach. A feeling of fullness after eating. Nausea, indigestion (like a lump of lead in stomach), Bile, Pain in stomach and intestines or other symptoms.

Should you at this moment be suffering from indigestion or any stomach disorder you can surely get relief within five minutes.

## HARRINGTON MUST ANSWER, SAYS JUDGE

Attorneys Will Seek Change of Venue for the McNamara's.

**LOS ANGELES, Sept. 25.**—John R. Harrington, the lawyer allied with the McNamara defense, who was charged with contempt of court for having refused to answer questions asked him before the grand jury, was ordered by Judge Bordwell today to respond to the questions. As a result of the ruling Lerompe Davis, one of the McNamara attorneys, declared it was probable that the defense would ask for a change of judges at the trial of the alleged dynamite conspirators.

The associates of Harrington, who was cited for contempt for refusing to respond to inquiries regarding his alleged attempt to influence Mrs. Lena Ingersoll of San Francisco, a witness for the state, said they did not know whether he would appear before the grand jury next Monday, the time for the hearing would elect to go to jail and institute habeas corpus proceedings.

Judge Bordwell's ruling came only after a stormy session in court in which Lerompe Davis and Joseph Scott, attorneys for the McNamara's, were ordered to sit down and W. J. Ford, assistant district attorney, was commanded to cease arguing.

The judge said that after an examination of the records he had concluded that Harrington's answer to the contempt charge contained no denial of the facts as stated in the affidavit of Charles Weiler, foreman of the grand jury, regarding the attorney's refusal to answer.

When the judge reached that part of his ruling, Attorney Scott rose and said he desired to file an amended answer to the charge against Harrington. He said the new document would deal with the contention of himself and his associates that the main issue in the proceedings against Harrington was whether the grand jury and the district attorney were acting in good faith or were instituting merely an idle proceeding. He said he and his associates wanted to know if the court would protect them from such actions.

Judge Bordwell said he did not think as amended answer was necessary as he had rendered the original document. He declared that an inadvisable case at the grand jury and the district attorney by the defense at the beginning of the hearing last Friday had not been admitted to the records and he did not wish to hear more of them.

Scott declared that Harrington's services to the McNamara's were not those of counsel and therefore the law did not protect him in that capacity. There was no reason, the judge declared, why Harrington should not answer questions asked by the jury. He ruled against Harrington's contention that as an attorney he did not have to respond to questions regarding the defense of the McNamara's.

During one of Scott's attacks upon the grand jury, District Attorney Ford arose and protested at his "insinuations," only to be told by the bench to quit arguing. Scott responded that he would make no "insinuations" but direct charges.

Scott asserted that the grand jury had not right to investigate the charge that Harrington had tried to bribe Mrs. Ingersoll in San Francisco. He said that if any investigation were to be made of the alleged crime, it should be made in San Francisco. Judge Bordwell said he had decided otherwise and declared that the grand jury must be permitted to proceed with its investigation whenever it thought there was ground for believing that attempts were being made on either side illegally to influence witnesses. He said it was to be commended for its work. "Then where do we get off?" roared Scott.

"Examine the law," said the court. "Sit down, Mr. Scott. I want no further argument over this matter."

Davis arose and began addressing the court on the same subject. He also was told sharply to sit down. The judge said he did not think that it was necessary to order any punishment for Harrington, but ruled that he must answer the questions. He released him on his own recognizance. Opposing counsel then agreed until next Monday for Harrington's scheduled reappearance before the grand jury.

Out of court, Clarence Darrow said he was not yet determined as to whether Harrington would answer the questions or would go to jail and begin habeas corpus proceedings to obtain his freedom.

Darrow said that the ruling of Judge Bordwell, taken with his previous statements that he had ordered the grand jury to investigate the case and his commending it for its action, gave the defense ground for asking for a change of judges.

If a motion for a change of judges is made it will be presented to Judge Bordwell himself and he would have to decide whether he is prejudiced in the matter. Before the case could be taken from this county it would have to be shown that all twelve of the regular judges here and two or three who sit in extra sessions, also were biased.

**CORNELL IS TO BE MODEL FOR AUSTRALIAN UNIVERSITY**

**ITHACA, N. Y., Sept. 25.**—In far off Australia a new university is to be the model for a large new university in Perth, the capital of Western Australia. Dr. H. Whitney, an expert sent by the Australian government, has investigated the methods in vogue here for the last week. He is particularly in the state college of agriculture.

**AFTER YEAR'S ABSENCE FORMER PRISON WARDEN SUICIDES ON DOORSTEP**

**PHILADELPHIA, Sept. 25.**—Returning to his home after an absence of nearly a year, Robert C. Stothwell, Jr., former warden of the Pennsylvania prison, last night rang the front door bell and then put a bullet through his brain. When his daughter Mary opened the door, she found her father's body lying on the step.

## TURKEY NOT LIKELY TO YIELD TO ITALY

Stubborn Contest Over Tripoli Feared in Europe.

**LONDON, Sept. 25.**—Great Britain in common with the rest of Europe had just settled down to what it was hoped would be a season of peace after the settlement of the Moroccan settlement when news came of a threatened war between Italy and Turkey. Nobody here believes that Turkey will give up Tripoli for economic consideration or without resistance.

On the other hand the friends of Italy do not believe that she proposed to take Tripoli with force without having first attempted to settle the difficulties through diplomatic channels. Although it is admitted that she has serious grievances, including the boycott of Italian goods in Asia Minor and Tripoli, the danger to Italian subjects in Tripoli through the return of agitators who were before expelled from the country for stirring up the people against the Italians; and in the matter of concessions in Tripoli granted to non-Italian firms.

However, from all sources comes the information that Italy is preparing to force a compliance with her demands by the mobilization of her army and navy and the movement of ships toward Tripoli. The Turkish forces at Tripoli are variously estimated at from 20,000 to 30,000 men, described as badly equipped and unable to offer serious opposition to Italian landing parties, who would be protected by guns of the navy.

Turkey's only reply would be the enforcement of a boycott of Italian shipping in the Levant and the expulsion from Turkey of Italian subjects, who have large interests in the country.

France, it is expected, will not interfere in any way with Italy while Great Britain also would be a spectator.

**GERMANY MUST ACT**

Germany would be most seriously affected as she would be in a position to have to choose between irreconcilable friends on a matter upon which is the direct result of her Moroccan enterprises and which will neutralize entirely the naval advantage which she expected from a careful nursing of Turkey, the recognition of the Turks and the Austrians and the encouragement of Turkish and Austrian naval ambition.

Germany, therefore is likely to attempt a settlement. It is improbable, however, that the Turks could be held back. For them to back down would bring about further internal troubles in Turkey, while on the other hand for them to go to war would mean an opportunity for which the Balkan states have long been waiting. On the whole, the outlook is dark.

**JOE LEITER IS SUE**

**ON \$300,000 NOTES.**

**CHICAGO, Sept. 25.**—Charles that Joseph Leiter had failed to make payments on notes given for wheat in his memorable attempt to corner the market in 1887 and 1889 were made today in a suit for \$300,000 filed by F. H. Peavy & Co., the holding company of the Peavy-Grady Company. Hopes of an adjustment delayed the suit up to now, according to Elmer H. Adams, of counsel for the Peavy Company.

"The notes given to the Peavy Company by Leiter have not been paid," he said.

"The statute of limitations would bar us from recovering anything on the notes if they were allowed to run much longer."

# News From Central California

## MAKE RECORD RUN FROM SAN FRANCISCO INTO PORTERVILLE

PORTERVILLE, Sept. 25.—Record automobile time from Oakland to Porterville was made on Sunday when a party of five made the trip in nine and one-half hours.

The crew included M. M. Dale, a popular member; A. J. Salladay of the Terra Bella district; O. W. Jones of Terra Bella, in whose car the trip was made; Jake Garver, Porterville auto dealer, who drove the machine; and C. L. Crowe, who is visiting the Salladays from the East by the train.

The best previous time for a trip from Oakland to this city is eleven hours. As the trip made yesterday was at the rate of fifty miles per hour over the good parts of the road, it is probable that the latter time will stand for some months to come.

## TO HOLD EMPERORS FOR A MONTH YET

Though some crops of emperor grapes are now ready for shipment, they will not be moved for some time. It is probable that the larger of the grape-shipping firms will begin their run for this season about October 25th. The reason is double: The today crop is being held back by shippers in account of the poor condition of the Eastern market and the fact here believe it is likely the condition of the market there will improve as winter approaches. The emperor crop, unlike all the other grape crops, is somewhat earlier than that of last year.

## DRUMMER STRICKEN SHOWING GOODS

DINUBA, Sept. 25.—While displaying ladies' garments in a local store here today, Lee A. Dick, a drummer, was suddenly stricken with paralysis and is now confined to his room here in a local hotel. Dick's condition is considered very serious and part of the time the commercial man is delirious. If his condition does not improve by morning word will be sent to the Fresno office of U. C. T. of which Dick is a member. This is his second trip to Dinuba.

## DIVORCED WIFE TO DEMAND RECEIVER

HANFORD, Sept. 25.—A notice filed in the Superior Court today states the intention of Mrs. Alice Bruce, who some ten months or more ago was allowed \$4500 out of her husband's estate after a divorce decree had been given, to move on October 2nd for a sale of the property, the appointment of a receiver and execution of the \$4,500 judgment. Attorneys M. L. Short and Dixon L. Phillips represent Mrs. Alice Bruce. H. S. Bruce, a wealthy Kings county farmer, is the defendant, and the motion will be based on the fact that he has not obeyed the order of the court relative to the payment of the money.

Restores Gray, Stagnant, Falling, Thinning, and Balding Hair. Makes the hair grow again, and keeps it in its natural color. It is the only hair restorer that does not contain any harmful ingredients. It is the only hair restorer that does not contain any harmful ingredients. It is the only hair restorer that does not contain any harmful ingredients.

## PACKING OF LEMONS STARTS AT PORTERVILLE

Quality Is Reported to Be Above Average and Yield Good.

PORTERVILLE, Sept. 25.—Packing of lemons started at the various houses on the "Row" this morning and by the middle of the week, the first carload lots of the fruit will start for the East. Packing has been in progress for the past week and the first of the lemons went to the sweet rooms last week, Wednesday.

It is stated that the quality of the lemons this year is above the average and that the yield is better than the average in quantity. It is not anticipated that the price conditions which prevailed last year will be obtained this season, however, as it is reported that the Eastern market and the fact here believe it is likely the condition of the market there will improve as winter approaches. The emperor crop, unlike all the other grape crops, is somewhat earlier than that of last year.

## PIONEER OF STATE DIES OF PARALYSIS

HANFORD, Sept. 25.—Thomas J. Lovelace, a pioneer of California, 1854, a Confederate soldier and respected retired merchant of this city, passed away on Sunday morning as a result of a stroke of paralysis suffered about ten days ago. He was a Mason for over fifty years and a member of the South M. E. church. He leaves a wife and six children, the latter being Archibald M. Lovelace of New York, Daisy Belle Tiffany of Pasadena, and the others of San Francisco and Stockton. Mrs. Lovelace, Mrs. W. H. Miller and Miss Ines Lovelace of Hanford.

The funeral services were arranged for Tuesday forenoon, to take place at the family home, "Rose Villa," Rev. Burke Northrup of the Grace M. E. church, officiating, with Hanford Lodge F. & A. M. No. 274, taking charge from the home to the grave in Hanford cemetery.

## E. O. MILLER TO BUILD THEATER IN HANFORD

Handsome Edifice to Cost \$25,000; Leased for Ten Years.

HANFORD, Sept. 25.—Agreements have been entered into by George P. Ashby, who for several years has conducted the Vaudeville show at the Hanford opera house, and former Senator E. O. Miller of Visalia, whereby the latter is to erect a handsome new \$25,000 theater building in Hanford and Ashby is to lease the same for a period of ten years.

The new playhouse is to cover two lots on West Seventh street, 50x150 feet and have a seating capacity of 300. The building is to be built of brick and terra cotta, be two stories high with two store fronts and entrance between them. The stage will be thirty feet deep with proscenium of twenty-seven feet and arch of twenty-two feet. The plans are now being prepared by J. Carl Thayer, a Visalia architect, and the contract will be let within a short time. The building is to be ready for occupancy before Christmas and when finished it will be one of the neatest little theaters in the interior of the state.

## FIRE IN FRAZIER VALLEY.

PORTERVILLE, Sept. 25.—Fire in the entrance of Frazier valley occasioned some disturbance here today. Several auto parties had made preparations to visit the scene when word was received that the fire had been put under control. The fire had been set to burn off grass in which the squirrels were being eradicated. Little damage was done.

## PERSONALS IN NEWS FROM THE TOWNS OF CENTRAL CALIFORNIA

### VISALIA.

VISALIA, Sept. 25.—J. W. Elder, who left Visalia with his family some months ago, going to Montana where he had mining interests, is here from Salt Lake City where he has been living since disposing of his mining interests. A charge of typhoid fever drove him and family out of the latter place. Mrs. Elder and family are now in Sacramento where they will spend the winter.

"Red" Lynch, who was formerly a member of the Visalia ball team, is back in town from New York City. He went East with Hal Chase's Yankons. J. R. Coats, who has been confined with an attack of pneumonia for some time is able to be out today.

Hert Lowe, who has been staying in Los Angeles for some time has gone to Oakland to be absent several months.

W. L. McDaniels, a rancher of the Polio section is recovering from a badly infected hand caused by the bite of a cow several days ago. Blood poisoning resulted.

### COALINGA.

COALINGA, Sept. 25.—Jesse W. ten was an arrival on the late train last night from Fresno.

Ed Shue left this morning by automobile to attend the fair at Hanford. L. S. Stepp left on the 6:45 train this morning for Lemoore on business.

R. D. Jones of the Bunting Iron Works, was an arrival on the 9:20 train this morning.

Harry Good of L. S. Stepp's store, returned on the 10 o'clock train last night from Lemoore.

Mrs. K. Fleming, representing the Paris store, of Los Angeles, was an arrival on the morning train.

### PLAN EXCURSION ON NEW RAILROAD

HANFORD, Sept. 25.—An excursion from Riverdale to Hanford, over the Hanford and Summit Lake railroad, is being planned by Charles E. King, who is in Hanford today. The excursion is being arranged upon the suggestion of the Kings County Fair Association. King has made arrangements with the Southern Pacific for a train connecting Hanford and Summit Lake, leaving at 10 o'clock this morning and returning at 10 o'clock this evening. The excursion will return at 10 o'clock this evening.

### HANFORD BRIEFS

HANFORD, Sept. 25.—Supervising Principal C. J. Fenner of the Hanford Grammar schools reports that the enrollment is on the increase. From 486 noted on the opening day, the list of scholars has grown to 751. The three schools under his supervision.

James Moran was given thirty days this forenoon by Justice Ferguson after he had pleaded guilty to petit larceny. Moran was arrested by Deputy Sheriff Kendall Saturday night when the latter saw him take a package from a wagon. The package contained some underwear, but Moran says that he supposed it to be a loaf of bread, and being hungry, he stole it.

The second trial of the case of William Saling for the robbery of Robert Markle was set today for October 17. The jury in the first trial disagreed.

## TO START P. S. BANK SHORTLY IN DINUBA

This Will Be the Third Savings Institution in Tulare County.

DINUBA, Sept. 25.—The postmaster of this city today received from the postoffice department at Washington, D. C., to the effect that a postal savings bank would be established here. The bank will be in operation in Dinuba by the 15th of next month. The announcement that Dinuba was to have the postal bank caused considerable excitement here as none excepting those employed at the postoffice were aware that such a request had been made.

The residents of this city feel highly elated over the news of the new savings bank. The establishment of the bank in Dinuba will make the third savings bank in Tulare county. The other two banks are located in Visalia and Tulare. The last two named are cities of the second class. Dinuba is a city of the third class and as far as can be learned is the only city of the third class in the valley that has been granted a postal savings bank. New fixtures have been ordered for the local postoffice and the entire interior will be remodeled.

### LICENSED TO WED

HANFORD, Sept. 25.—Marriage licenses were issued to Alvin F. Tiner, aged 21 years, of Hanford, and Margaret E. Lane, 20, of Fresno, today, and to William Avera, 33, and Virginia Jackson, 25, both of Lemoore; to John C. Costa, 28, and Rodriguez Costa, 22, both of Hanford.

A license was issued Saturday evening to James Damon, 45, and Bessie Carlie, 45, both of Coalinga. They were married by Rev. McKnight of Coalinga soon after procuring the license, the minister coming over to Hanford with them.

## CHINESE GOOD LUCK SIGNS FAIL TO WORK

Officers at Selma Rush By Them and Arrest Gamblers.

SELMA, Sept. 25.—The good luck signs over the house belonging to See Ho Fong, in Selma's Chinatown, were having little effect on Saturday and Sunday nights for the American officers "made bean lots of trouble for Fong" both nights. The officers had been suspecting for some time that the place was a gambling den and after watching the place carefully the officers made a dash on the place last Saturday night and captured three Chinese and the gambling paraphernalia. Although the officers were earnestly assured that there had been no game in progress, and that gambling had never been carried on there, Marshal Ingram concluded otherwise, and surprised the place again after midnight last night. The surprise was even more complete than the first one because two Chinese and a bunch of Japanese, who were unknown to the number thirteen, were caught, together with another complete lay-out of gambling devices.

The first three Chinese have entered a plea of not guilty before City Recorder J. Mitchell and have retained W. D. Crichton of Fresno to defend them.

The fifteen who were captured in last night's raid have not yet been arraigned, but it is expected that they will appear before the court on Wednesday morning. One of the Japanese, however, appeared early this morning and expressed his sorrow at being caught in the place, where he was merely a spectator, plead guilty, and paid a fine into the city treasury to avoid further trouble. Just what the others will do is not yet known. All are out on bail.

## EPISCOPAL MISSION IS TO BE CHURCH

LINDSAY, Sept. 25.—The Episcopal church, which has had an almost nonexistent existence in Lindsay for some years, under the title of St. John's mission, was organized yesterday morning for regular service. The service yesterday was conducted by Rev. L. A. Wood, the general missionary of Tulare county, who will undertake the duty on three Sundays in each month, the other Sundays or Sunday being in charge of W. W. Tulse, the lay leader of the district.

Waddell Hall will be used for the services until the congregation is prepared to build upon the property it already owns in town. The intention being to erect a building in the first instance, that may be used for several meetings as well as for the service.

## TO REDUCE GRADE ON MOUNTAIN ROAD

VISALIA, Sept. 25.—County Surveyor Lovelace is preparing his estimate to be submitted to the supervisors for the reduction of the grade of the road to Mineral King at Oak Grove. The survey just completed will provide a grade of not more than five per cent, an improvement which will be received with acclaim by all mountain visitors to that portion of the Sierra that the work will be received by the supervisors shortly.

## DISMISS FELONY CHARGE

VISALIA, Sept. 25.—Upon motion of District Attorney Lamberson, the charge of felony against Warren Adams of Porterville, was dismissed this afternoon. The evidence was insufficient. It was charged that Warren enticed little Nellie Carruthers into an out of the way place. The child told the story to her mother.

## RUGBY GAME TABOO!

EXETER, Sept. 25.—Rugby football for the present season at Exeter, received a body blow late last week when a meeting of the school board ruled that no more rugby should be played. It is stated that the ruling was made on the ground that the game is too rough.

## DYNAMITE EXPLODER PEPPERS WORKMEN WITH COPPER PELLETS

VISALIA, Sept. 25.—Word received from Three Rivers states that John Hunter and H. H. Hubbard, employees of the Mt. Whitney Power and Electric Company, have been the victims of a serious accident. Hubbard was engaged in repairing an electric dynamite exploder and placed a cup preparatory to a test. Not knowing that the other had charged the apparatus, Hunter turned on the juice. Both men were standing near and the resulting explosion filled the lower limbs of each with bits of copper. Hunter was pierced by twenty-five or thirty pieces and Hubbard in half a dozen places. Both are recovering.

## WOOD VS. ALFALFA ISSUE IN COURT

HANFORD, Sept. 25.—The motion to dissolve the injunction in the case of George Eaton and L. E. Hall against the Florio Alfalfa Syndicate occurred today. The defendant is enjoined from removing a large quantity of cottonwood from lands rented for agricultural purposes by the syndicate. The controversy arose when the syndicate wanted to plow some land where the wood was located and set to work moving it to another place. The defendants claim that they piled it in such a shape that no one could tell how much there was of it. When they were half through moving the wood they were ordered from further disturbing it. The motion will show the rights of the defendants as lessees of the land to cultivate it, and the rights of the plaintiffs who in the lease reserved the right to cut and handle the timber growing thereon. Attorney F. C. H. Russell represents the plaintiffs while H. S. Jacobs represents the defendant. After argument the motion was taken under advisement by Judge Covert.

## CAPTAIN STEPHENSON DEFENDS AMENDMENT

Officers at Selma Rush By Says Proposed Tax Exemption Law in Interest of War Veterans.

Editor Republican.—Hon. A. M. Drew in Sunday's Republican states that he finds Constitutional Amendment No. 48 decidedly objectionable, and in support of his belief quotes part of the proposed amendment, arguing the board of directors of Stanford University for trickers, money-grubbers or two dogmatic statements, and closes with the inference that the proposed amendment will chiefly benefit the veterans of the Philippine insurrection.

I think Mr. Drew, on second thought, will agree that it was unfair not to quote the whole text of the amendment, and that the action of the governing board of Stanford University is entirely irrelevant, and that his statement is a generalization, and that our people is to escape taxation is more of a libel than had he said: "The general tendency of our people is to escape their duty." In the war of military service, and he certainly must know that more veterans of the Civil war than their widows will be exempted by this amendment of a medium of taxes than will Philippine veterans. And the same is true of veterans and widows of the Spanish war.

In checking over a roster of all the known veterans of the Philippine insurrection living in Fresno county, I find very few who would profit at all by the amendment, but in the case of their widows it is different. One man recently dead left a widow and three children and an estate consisting only of \$1000 life insurance, obtained before enlisting. He had been an invalid since his return from the Philippines (eleven years). Entirely through the personal efforts of Hon. J. C. Neeldham he had secured a pension only a year before he died. His devoted wife worked in the packing houses in the day time and nursed him at night for years. I don't believe it is the wisest taxpayer in the state will object to the four mills that will help exempt this widow's milk.

Another recent case was of a man not so badly disabled by his Philippine experience, but his physical condition was such that he was turned down by the life insurance companies. He left a wife and child and an estate of less than \$2000.

Men who are physically and financially able to provide for their loved ones will not begrudge this widow of the remittance of part of her taxes.

Another recent case: The man died after being partially incapacitated for ten years, during which time he had received a pension of \$30 a month. He left a widow and one child. His pension stopped on the day of his death. His estate consisted of a house and lot worth about \$1500. His comrades passed around the hat so that his widow and orphan could have food, fuel and clothing without encumbering the property.

"If we don't, we must pay the dollar." These women had nothing to do with causing the Philippine insurrection. The people of this great country are responsible, and to think of shifting now in our obligation to them is cowardly.

The great state of California does less for its veterans than nearly any state in the Union, and it should not be necessary to argue that the adium should be removed.

The veterans of the Civil war, the widows of such veterans, now past their prime, those whose eyes are dimming and whose joints are no longer supple, those who have not amassed a competency of the world's goods, and those who have acquired a bit of money will have that money exempted from taxation. Vote for it. Of course, why Mr. Drew will forget about the church and educational property that has been exempted and vote for it himself.

## "MISS NOBODY FROM STARLAND" AT THE BARTON TOMORROW NIGHT

Joseph M. Neimeyer, comedian, with tomorrow night.

Mort H. Singer announces himself as merely the producer of "Miss Nobody from Starland," the stupendous musical comedy production that appears at the Barton tomorrow night. But it appears that the idea of the little character and some of the more important incidents of the plot are the result of his suggestions to the authors. That "Miss Nobody" of the chorus, who is

## BACK COVERED WITH MASS OF PIMPLES

Burned and Itched So He Could Hardly Stand It. Tried Medicines, Etc., Nearly 3 Years. In Eternal Misery. Started Using Cuticura Remedies. Now Has No Sign of Skin Disease.

"My troubles began along in the summer in the hottest weather and took the form of small eruptions and itching and a kind of smarting pain. It took me months all over my back and kept getting worse until finally my back was covered with a mass of pimples which would burn and itch all night so that I could hardly stand it. This condition kept getting worse and worse until my back was a solid mass of big sores which would break open and run. My underclothing would be a clot of blood.

"I tried various blood medicines and other remedies and saved for nearly three years and I was not getting any benefit. It seemed I was in eternal misery and could not sleep on my back or lean back on a chair. I was finally given a set of the Cuticura Remedies by my brother who recommended them to me very highly. I started using the Cuticura Remedies and inside of two weeks I could see and feel a great relief. I kept on using Cuticura Soap, Ointment and also the Resolvent, and in about three or four months' time my back was nearly cured and I felt like a new being. Now I am in good health and no sign of any skin diseases and I am fully satisfied that Cuticura Remedies are the best ever made for skin diseases. I will always recommend them to everybody who will use according to directions. I would not be without them." (Signed) W. A. Armstrong, Corbin, Kan., May 26, 1911.

For more than a generation Cuticura Soap and Ointment have afforded the most successful treatment for affections of the skin and scalp of infants, children and adults. Although sold by druggists and dealers throughout the world, a liberal sample of each, with 32-p. book on the skin, will be sent free, on application to: Potter Drug & Chem. Corp., Dept. 27A, Boston.

**YOUNG BROS.**  
"Indoor Shoe Shining Parlor,"  
1930 Tulare.

portrayed in the play, it seems formerly adorned the awaying front row at the Princess Theater, Chicago, where her social and financial exploits caused no end of excitement. Mr. Singer met the young woman on route to New York, not long after she had left his employ and her recital of her affluence and her happiness brought to her distinction of being selected as the model that was followed in the composition of "Miss Nobody from Starland."

"Miss Nobody from Starland" is the joint work of Adams, Hough and Howard and Mitchell, who are responsible for nearly all of Mr. Mort H. Singer's successes. The book and lyrics are particularly bright and crisp, while the musical selections are said to be gems of melody.

Office Val's title role is "Miss Nobody from Starland" will be that of "Miss Nobody" of the chorus, who makes people believe she really is somebody when she is off the stage and away from the footlights. She is a shy little enchantress who has all sorts of cunning schemes on foot for her own aggrandizement. She has beauty and a manner that makes all the men fall in love with her to such an extent that she uses them as unwitting agents to aid her in carrying out her little plots. One of them is an undertaking with her brother to smuggle a few diamonds across the ocean on the liner "Lustanlu" and so cleverly does she contrive those around her that she even has as allies, detectives of the customs department who have been put on trail of diamond smugglers. Everybody wants to marry her and on the Atlantic voyage she annexes several "papas" and "brothers" who do not discover the entanglements into which they have been put, until the last curtain falls on a stage door scene.

**LET'S MOVE TO JERSEY**  
Apples are an abundant crop West of the Rio Grande. The price has dropped to 8 cents a bushel. The retail price of apples in New York City is said here to exceed the price per bushel the cider mill men are paying.—New York World.

## RHEUMATISM IS A CURABLE DISEASE

But It Must Be Treated in the Right Way to Secure Such Results as This Kansas Case Shows.

Once a sufferer from rheumatism, always a sufferer from rheumatism can no longer be said of the victims of this painful disease. At least it cannot be said of those patients who have given Dr. Williams' Pink Pills for Pale People a thorough trial. These pills do the only possible thing that can give a permanent cure in rheumatism: they build up the greatly thinned blood and enable it to rid itself of the rheumatic poisons. More than this they so purify and strengthen the blood that it can successfully fight off a return of the disease. How much better this method is than the old way of trying simply for temporary relief through the use of limonates and pain killers is shown by the permanency of its cure.

Mrs. Louise Jones, of No. 1219 Mansfield street, Winfield, Kansas, gives this reliable statement of her cure by Dr. Williams' Pink Pills:

"I first noticed the rheumatism when I began to have severe pains and inflammation in the fingers of my right hand. The pains soon extended over my entire body. My limbs were swollen and the joints were inflamed. I could not step on my feet for six months and had to walk with crutches. I lay in bed for five weeks at one time. I suffered for fifteen years and this long sickness made me weak and run down in health. My stomach was disordered, everything I ate turned sour and gas formed on my stomach. I suffered a great deal from nervous headache.

"The doctors did not do more than give me temporary relief and it was not until I tried Dr. Williams' Pink Pills that I was cured. I had not taken the pills many days when I could see they were helping me. I took several boxes and have never been troubled with the rheumatism since. My stomach has also been strong. I am able to eat anything I care for and I am well and hearty now."

Our booklet, "Diseases of the Blood," will be sent free to any sufferer from rheumatism, anemia, general breakdown in the health, or after-effects of the grip or fever.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 60c. per box; six boxes for \$2.50, by Dr. Williams' Medicine Company, Schenectady, N. Y.

## FORMER FRESNAN RECALLS "THE LOST CAUSE" UPON VISIT TO SUNNYSIDE VINEYARD

(By C. M. PYKE.)

Without going into any lengthy details as to the wonderful change that has taken place in Fresno City and vicinity within the past eighteen years, and how much it is to be regretted that at this time by request, give a brief account of how I was impressed at a sight of that beautiful valley garden, Sunnyside, or the Ooutout vineyard as I know it, eighteen years ago. What a surprise! And this magnificent spot is expected to become the home of the Fresno Country club. Let me congratulate you, on selecting a place so well adapted, and a site without an equal for excellence in the Western country. My first recollection of the place was that it was a very unattractive stubble field with more that was considered undesirable in land than good, especially for vineyard purposes. I had talked many times with Mr. Ooutout with whom I was well acquainted, as to its advantages and disadvantages, but he liked the situation very much, and thought that the portion that was considered unfavorable for the setting out of trees and vines, could be made a considerable blessing, he made suitable for the same. It is well known by many who were here at the time, what an immense amount of money was consumed in the undertaking, but the task was accomplished, and splendid results attained, but now all that is practically left, is a magnificent monument to his name. In 1891 or 92 if I remember the years right, I used to visit this perfect home frequently, as at that time I owned a pretty little vineyard a little over a mile due south, so many times when the day's work was over, I would hitch my horse to the sulky and drive over. They were all there then, father, mother, three daughters and a brother-in-law, and strange as it may seem, three have been taken away and three left.

As I stood there in the perfect stillness alone, and gazed into the vacant home my memory carried me back to a picture that told so much of the "Lost Cause" of a Confederate soldier who had returned from the Civil War, he is standing with drooping head, his arms folded across the

muscle of his gun. There was no one there to welcome him, there was no one left but the bound dwelling. There was in the present case, however, an extreme, the dwelling was intact, but there were no signs of life within. There stood the beautiful home with the most delightful surroundings one could imagine: its lawn, its flowers and trees, all forming a picture of rare excellence. A secluded spot refined and peaceful. I do not know of another spot in the state of California with the advantages for a country club that this one possesses. It is an opportunity that should not for a moment be lost. Not wishing for a moment to appear presuming or dictatorial, and trusting I may be pardoned for offering a suggestion that may have already been considered, would it not be a most appropriate and pretty idea for the club, when it takes possession, and while fitting up to have placed in some beautiful place in the house, a small tablet, or printed parchment bearing the name of William Ooutout the Gardens Creator.

May I add in conclusion that I think such a club as the Country club is sure to be, is something needed, and will prove to be of far more than ordinary benefit to Fresno and the community from a business standpoint. Its social advantages are sure to be many. It will prove the one spot to which you have driven distinguished visitors, as well as those who come here for the purpose of inspecting your vineyards, that you will take a delight in having them see before taking their departure. Surely if visitors are impressed with the vineyards they must be with your club, consequently you have a double advantage. The very approach and entry to such a spot signifies thought, culture, and importance, a very strong point toward lasting impressions. The future of this garden valley is beyond comprehension, for if it can increase and there is every good reason to believe it will—as it has in the past eighteen years as I have shown, what will be its condition eighteen years hence. You cannot fail in your advancement if it is not in nature's order that you should

## MRS. EDSON SPEAKS IN HANFORD, HERE TONIGHT

Judge Church Also Talks for Equal Suffrage Amendment.

Mrs. Farwell Edson of Los Angeles and Judge George E. Church of this city spoke from an automobile in a street meeting held in Hanford last night, in favor of equal suffrage. The meeting was under the auspices of the Hanford Suffrage Amendment League.

Tonight, Mrs. Edson and Judge Church will speak on the equal suffrage amendment at the court house in this city. The speaking is arranged by the local suffrage club.

For some time, Mrs. Edson has been working out of Los Angeles, "stumping" from her automobile. She spent the latter part of last week in Kern county and has just returned here. Judge Church was a speaker. She also visited the West Side offshoot towns. She was in Fresno Saturday and Sunday.

## IN THE LODGE ROOM

**FRATERNAL BROTHERHOOD**  
Fraternal Brotherhood No. 21 held an interesting meeting last night in the hall. The usual routine business was transacted and Mrs. Fugh was reported to have been injured recently in a runaway. The committee in charge of the "hard time" social, which will be held next week, reported that they were meeting with much success and that the social would be a grand affair. Complete arrangements are being made and prizes will be offered. Plans are also being completed for the twelfth anniversary, which will be held on October 20th. Supreme Chaplain Batchelor of Los Angeles will be the guest on the night of the anniversary. Batchelor is a charter member of the Fresno lodge. A committee has been appointed to make arrangements for the anniversary celebration. The committee consists of Messrs. Broome, Cederquist and Muselman. The usual social dance followed the business meeting last night.

**ORDER OF EAGLES**  
Fresno Aerie No. 39, Eagles, met for the first time in their new hall last night. The Eagles have moved to the A. O. U. W. hall where they will hereafter hold their meetings. Three candidates were elected to membership and initiated. They were W. D. Edwards, O. A. Lindquist and J. Misicovitch. After the regular business session, a pleasant social hour was enjoyed. The social hour was taken up with music and stories.

## REPORTS STATUS OF VALLEY RATE CASE

Traffic Association Meets and Hears Hill's Report; Arguments Tuesday.

At a postponed meeting of the directors of the Fresno Traffic Association last night, Traffic Manager F. M. Hill reported at some length on the status of the San Joaquin valley rate case, in which Fresno is an interested party. Arguments in this case are to begin on next Tuesday, in San Francisco, before the state railroad commission. Among other things that attracted attention at the meeting last night was the statement recently filed by the Southern Pacific engineering department, placing the value of the freight line of this railroad at \$230,000,000. Matters of routine were transacted for the most part last night, and no new business was taken up.

**TOBACCO TRUST PLANS**  
NEW YORK, Sept. 25.—Announcement was made at the conclusion of the conference, looking to the organization of the American Tobacco company today, that a petition would be filed with the United States circuit court on October 2nd, setting forth the proposed plan of dissolution in connection with the mandate of the Supreme court and that public hearings on the plan would follow. Data for the public hearings were not announced.

## WARREN FAMILY IS SEPARATED BY FATE

Four Little Girls Go to Cottage Home; Mother to State Institution.

The four little Warren girls, ranging in ages from 10 to 3 years, all sick and span in clean faces and starched clothes with their hair bedecked with ribbons, were before Judge Austin yesterday afternoon and the heart of her court and those who were gathered when the judge committed them to the care of East Oakland of the Mary R. Smith's Trust at Fourth and Cottage streets as their future home.

The children have been practically abandoned by their mother, while their mother is in the state hospital in Sonoma county. The father and a brother have been under the care of their aunt, Mrs. C. M. Bates of 2335 White avenue, who is a widow with three of her own children and four besides the stricken sister and who finds the task greater than her ability, having to go out to work as a washwoman to keep the gaunt wolf from the door.

The sending of the children to the institution is the result of the fact that they have been delayed with arrangements could be completed by Judge Austin for their reception and so that Mrs. Bates can make one journey in the removal of her sister and the little girls.

The Mary R. Smith's Trust is an institution in Sonoma county, the "Borax King" has endowed and of which she is one of the directresses. It is not a home finding society but undertakes to take young girls only to educate them and prepare them for life and business. The little Warren girls were committed as dependent children through the juvenile court that the father may not hereafter come to claim them, having done nothing for them but shifted the responsibility of the care of them and the helpless mother on the already burdened sister-in-law. The East Oakland institution is conducted on the plan of home cottages with ten girls to a teacher in a cottage and eight such cottages in operation.

Judge Austin also induced Sheriff McSwain to forgo the fees that would come to him for delivering Mrs. Warren to the Sonoma home, and going before the supervisors secured from them an allowance of \$24.65 railroad fare for Mrs. Bates to take the four little girls northward when the sheriff's legal charges would have been \$38.40.

The movement to have the children sent to the East Oakland institution and their mother to the state home in Sonoma was initiated by Rev. Thomas Boyd.

## PETTY OFFENDERS APPEAR IN COURT

Twenty-four petty prisoners appeared before Police Judge Briggs yesterday morning and most of them pleaded guilty to the charges against them. All of the men arrested for vagrancy because they were sleeping in a hay stack, pleaded guilty and were sentenced to five days in jail. Bert Burns, a bell boy, pleaded guilty to a charge of vagrancy and was given time to leave the city. "John Doe Italian" pleaded not guilty to a charge of drunkenness and was returned to jail in default of \$50 bail. The usual Monday morning number of men pleaded guilty to being intoxicated and were given chances to mend their ways.

## POSTAL OFFICERS EXPECTED TODAY

Postal Telegraph authorities from the head office in San Francisco did not arrive in Fresno yesterday as expected to examine the books of Robert Behrens, the manager who is missing, but it was announced in the local office last evening that the San Francisco men would surely arrive this morning. No word has been received from Behrens and his friends in Fresno are unable to account for his prolonged absence.

It was stated yesterday at the office of the Telegraph company that Behrens had not been relieved of his duties here as local managers and that he would arrive at the office Friday morning and has not yet returned. The employees of the local office have no knowledge of the books as they were kept personally by Behrens.

1231 K ST. FRESNO, CAL.

# SOCIETY

At the handsome residence of Mr. and Mrs. H. H. Brix, on 8 and Fresno streets, last night, was a large gathering of the friends of Mr. and Mrs. H. H. Brix, to celebrate their wedding anniversary. The beautiful interior of the new home was artistically decorated with arrangements of flowers in harmonizing tints. Potted plants added their own coloring, and yellow asters and red roses added to the effect. Among those who assisted Mrs. Brix in receiving the guests were Mrs. George L. Marlow, L. O. Stephens, Mary Westover, M. C. Harris, C. H. Hoffman and M. H. Hoffman.

A delightful collection of musical numbers added to the evening's pleasures. Miss Julia Harris, a recent addition to the local musical circles, being heard in one of her favorite vocal solos. The violin number by Paul Brix, accompanied by Miss Emma Brix, won applause, and a vocal duet by Mrs. C. A. Murdoch and Mrs. George L. Marlow gave much pleasure. Miss Martha Harris presided at the piano with her usual grace, and contributed the program with a very enjoyable piano number.

Dainty refreshments were served. As a token of the esteem in which the guests of honor are held, a very handsome present was given them, being an after dinner coffee service, including coffee pot, creamer, sugar bowl, etc., and a very elegant tray with glass protection.

The older members of the Tokalon Club of the Y. W. C. A. enjoyed a frolic at the association rooms last night in what was termed a "Hard Time Social." True to the nature of the entertainment, costumes, program and refreshments were in keeping, and furnished an immense amount of fun throughout the evening.

Mrs. Hector Burgess and children returned at the latter part of the week from an extended vacation in San Francisco.

## ARE STOMACH ILLS CAUSE OF DIVORCE?

So Hints Munyon in Talk on Relation of Body and the Brain.

The old saying that the way to a man's heart is through his stomach came forward again in new guise when Dr. M. Munyon, the noted Philadelphia, Pa., physician, delivered his talk on "The Cause of Divorce" at the Y. W. C. A. last night.

Dr. Munyon, in his talk, declared that one of the great causes for domestic unhappiness is indigestion. He pointed out that the stomach is the center of the body, and that it is the source of all the life-giving forces.

Professor Munyon said: "The close interrelation between the body and the mind is becoming more generally recognized. The last few years, not only among the medical profession, but even among the laymen, there has been a great awakening to the fact that the mind is not independent of the body."

"All too often," he said, "the stomach is neglected. It is the source of all the life-giving forces, and it is the source of all the life-giving forces. It is the source of all the life-giving forces, and it is the source of all the life-giving forces."

"No man can succeed financially, no woman can be her real sweet tempered self, who forgets the time the irritating, indigestion, and the source of all the life-giving forces, and it is the source of all the life-giving forces."

"Sometimes this condition lasts for years without being understood, even by the patient. In other cases it grows slowly worse, and finally the stomach and intestines, exhausted by the poisoning of the system, give out. The patient then dies, and the cause of death is indigestion."

"Now, all this may be averted at any time short of the final stage of the disease. The patient will throw away his laxative, and take a course of Dr. Munyon's 'Laxative' and his stomach will be restored to its normal condition."

"I speak so often of Nature and her ways that I am sometimes called a 'Nature Cure' man. But I think the many thousands of unpolished testimonials to cures effected by my doctors demonstrate that my ideas are more than a 'Nature Cure' idea. It is not a 'Nature Cure' idea, it is a 'Nature Cure' idea."

"We are meant to be full to overflowing of radiant, glowing health, alert, strong, self-controlled, sweet-tempered, clear-skinned, and bright-eyed. I am more happy than I can say that I have been able to make many thousands of persons over this that way of living, and in some cases, many years of miserable existence."

"I shall hope to meet many more who need the help, and any advice which my expert physicians can give. I am free to the asking to any person who will call at my headquarters in Fresno at Rooms 24 and 25, Fourth building. A competent physician will meet every caller between the hours of 10 and 12 daily, and until 5 o'clock Saturdays."

## LEAVES ESTATE TO HIS TONG AND SON

The will of Sue Shang was filed for probate yesterday, disposing of an estate valued at \$5000 and comprising one and one-half acres of town lot property in Seima. Shang bequeathed one-half of the estate to the Wing Young Tong, of which he was a member, and the other half to a son in China. The will is dated September 12th, made ten days before death. There is nothing Chinese about the document, save that the two subscribing witnesses are Chinese, likewise the petitioner and executor, George Shing. The latter is not even required to give a bond but is granted authority to dispose of the property without order of the court.

## FOUR COUPLES ARE LICENSED TO MARRY

Four licenses to marry were granted yesterday to the following named couples:  
Albert Worthley, native of California, aged 25, resident of Coalinga, and Carolyn Gordon, native of Illinois, aged 25, resident of Fowler.  
Joe King, native of Georgia, aged 25, resident of San Francisco, and Rose Warlick, native of Kansas, aged 19, resident of Fresno.  
Valter W. Wright, native of Michigan, aged 25, and Etta Helman, native of Illinois, aged 26, residents of Dinuba.  
Edgar J. Sherman, aged 23, and Myrtle E. Montgomery, aged 20, residents of Coalinga, and natives of Oregon.

M. A. C.  
Guaranteed to cure sour stomach, gas and heartburn or money back, only at Smith Bros.

## FREE ADMISSIONS MARK OPENING DAY OF KINGS COUNTY FAIR

Live Stock Parade Will Be the Chief Feature at Grounds Today.

Communities Compete for Honors in Rival Display of Products.

HANFORD, Sept. 25.—The opening day of the Tenth Annual Kings County Fair was characterized as usual by free admission, owing to the fact that the going to and from the grounds by those making displays rendered it impossible to keep track of the crowd. The busy army of workers preparing the exhibits surged to and fro and everything was bustle from one end of the grounds to the other.

The show opens in earnest tomorrow with a big live stock parade, which will depart from the usual custom of swinging around the track and cover the mile of road clear into Hanford, traversing the streets there and returning to the grounds.

The live stock exhibits are unusually numerous this year. To prepare for them, the fair directors had to build several additional sheds and stock barns and even with added accommodations the cattle and horses are cramped for room. The poultry house is fairly well prepared to receive pay visitors tomorrow. Here close to five hundred birds are shown, the principal exhibitors being: M. B. Smith, E. Gallup, W. F. Hensel, R. B. Smith, Hanford Poultry, T. J. Glickerson, B. P. Shirk, G. L. Meadows, F. F. Bradley, S. Benedict, M. A. Hill, Homer Tynes, F. Griffith, H. E. Hill, A. R. Price and C. V. Parker. From outside the county, J. Shirk of Tulare county and Mrs. Jennie Strader of Stanislaus county will compete.

The machinery and automobile halls were fast filling up today with promise that the shows in the implement, manufacturing, farm device and vehicle line will be exceptionally large.

The main pavilion is in readiness. It presents a very showy appearance with its profuse decorations of green and yellow—the official colors. The Kings County Chamber of Commerce makes an artistic display of county products, jarred fruit, dried and fresh fruit in the center of the main hall. The Grangeville community has entered another splendid exhibit and the Laguna Land Co., Limited, shows a fine exhibit of products from the Laguna de Tache grant. The balcony contains the textile fabric, lace and women's handwork. This exhibit is in charge of Mrs. S. M. Joiner. Le-moore, Corcoran, Grangeville, Armona, Hanford and Coalinga ladies have a wealth of beautiful bits of fancy work and art in the balcony.

Among the principal live stock exhibits are many animals which took prizes at the state fair in August. Some of these entries are made by the Howard Cattle Co., Bonnerly & Duke, R. H. Cartwright of Modesto, Charles Kimball of Hanford, Mrs. Jennie Strader of Cores, N. H. Locke of Lockwood, M. B. Smith of Hanford, W. F. Borchert of Hanford and Revel English of San Bernardino. The first day's racing (Tuesday) presents a fine card. There are two harness events—a 2:30 trot and a 2:20 pace, the former for a \$500 purse and the latter for a \$1,000 purse. Besides these there will be three running events with over-night entries.

## WALK-OVER SHOE STORE

Fresno and Bakersfield, Cal.

# Fresno's First Fashion Show

The Fashion Show is now a thing of the near future. The merchants are getting their displays in readiness. People all over the San Joaquin Valley know of the Show and expect to come. There will be immense crowds and they will not be disappointed. They will see some of the most elaborate displays that can be seen anywhere.

It is becoming apparent that the Fresno Fashion Show will be greater than even the most enthusiastic had expected. Each merchant is trying to surpass all others in the lavishness of the display he will make. This means that the richest displays that have ever been shown will be on exhibit September 28, 29 and 30.

Plan to attend.

## Thursday, Friday and Saturday Sept. 28, 29 and 30

These Stores Will Participate

## DINUBA COUPLE IS MARRIED IN FRESNO

Walter W. Wright and Miss Etta Helman, both of Dinuba, were married yesterday and came to Fresno where they were united in marriage by Justice of the Peace Smith. They appeared at the office of the county clerk to secure the marriage license before the ceremony. The ceremony was performed in the church and the wedding which was dedicated last November.

They will make their home in Dinuba.

## WINDOW DRESSERS BUSY ON DISPLAYS FOR FASHION SHOW

Behind Drawn Curtains  
Surprises Are Being  
Put in Order.

Outside Towns Showing  
Big Interest; Great  
Crowd in Sight.

Fresno's first Fashion Show yesterday showed a point of difference from everything else in the show line, when the curtains fell, as a preliminary to the opening of the show. Over show windows here and there throughout the retail section, canvases were hung, and they will not be raised until the big show is on, next Thursday. The reason for it all is that the window dressers yesterday got busy on about the biggest job they have ever yet had to put through.

On the big day, the contents of all these veiled windows are to be revealed. What they will show, specifically, is only a matter of conjecture. What they will show, as a general proposition, is declared unanimously to be the most elaborate collection of modish and handsome garments and articles of dress ever seen in Central California, arranged and displayed with an attention to artistic and effective detail that has never before been attempted in Fresno.

And now comes the man who supports the movement for carrying articles that is being started at this fashion show. He is called only this, the up-to-date thing, adopted from the Continent in eastern cities, but the cane furnishes the bearer with a weapon that will make the footpad and gas-pipe artist think

twice, and then probably change his mind. That's one of the utilitarian things that is coming out in discussions of preparations for the Fashion Show.

Talk about living models has been a sort of intangible thing, until within the last day or two, when cases have begun to speak, and possessors of many "figures" are in demand. The idea in the living model is partly novelty, but as the real idea of this show is substantially and not more display, there is the better reason for using the living figure to display garments, that it may be more effectively accomplished in that way.

Further, there is the added feature, that this is the first Fashion Show ever held within easy reach of the valley people, which they might attend without incurring considerable expense. In fact, big crowds are being looked for more confidently daily. Particular interest is being taken in the "Friday, "Governor's Day," and Saturday, "Fencil Day."

## CHINAMAN HELD ON ROBBERY CHARGE

Wou Chuens, a Chinaman, charged with robbery, was yesterday held to answer to the Superior Court by the justice of the peace at Reedley. Chuens is alleged to have held up and robbed Wong Tze, a Chinaman, at Del Rey last winter and secured over \$100. The testimony at the preliminary examination, which was given by the defendant in his own behalf, was very conflicting. He first denied that he had at the place of the hold up on that night, but was unable to tell where he was at that particular date. Even the relatives of the defendant have deserted him and this according to the Chinese is a bad omen for the Oriental. He was returned to jail in default of \$2,000 bail. J. H. Franklin, a Chinese interpreter, was the official interpreter at the hearing.

## EVERYBODY SATISFIED ON ROUTING OF STATE HIGHWAY

Supervisors Recommend  
Two Routes Through  
Fresno County.

Formal Documents Go to  
State Commission By  
Mail This Evening.

The supervisors met specially yesterday and reconsidered on motion of Mr. Johnson the action of last week in recommending unconditionally only the straight route paralleling the Southern Pacific railroad for the state highway through Fresno county.

After another executive session yesterday the four members of the board in attendance professed by the experience of last week and before breaking up the executive session caused Clerk Usher in their presence to typewrite the letter to be addressed to the state highway commission recommending two routes. Action on the adoption of this letter with its two recommendations satisfying all concerned was had by unanimous vote, so that the presence of Supervisor Huffman was not necessary to vote on the confirmation vote.

The board says in its letter to the state commission that as indicated on the map accompanying the report it has "after carefully considering the different routes proposed by its constituents and committees selected for consideration two routes." These are described as follows in the letter:

"The one marked in red parallels the S. P. R. R., being the shortest route, and for the greater part passes through a highly cultivated and thickly populated district, and owing to its diagonal course through the county accommodates a great deal of the traffic. The one marked in yellow, being the longer and more scenic route, enters the county on the north over a concrete bridge that spans the San Joaquin river, then south and intersecting the Kearney boulevard, which for four miles passes through the vast Kearney estate, consisting of 6,000 acres, and on which is located Kearney Park of 240 acres. This great estate is now the property of the state, having been donated by the late M. Theo. Kearney. The road enters Fresno city through this beautiful avenue, thence parallels the main line of the S. P. R. R. to a point between Fowler and Selma. The route here turns east by Reedley, leaving the county in the thermal belt and entering Tulare county in the same belt of country.

This is the nearest point to the high Sierras which is located just beyond Camp Grant National Park, the Giant Redwoods, Sequoia Lake, Redwood Canyon, Giant Forest, the State Highway and Kings River Canyon. There is a new mountain road of 6 percent grades to connect with the above mentioned route.

"You will note by data furnished that both routes pass through a very fertile and well populated territory. In considering the two routes, should you find it advantageous to take a portion of both to make up one, it will be satisfactory to our board."

Accompanying the formal letter will be the illustrating map of the outlined routes and also data showing assessment valuations of property on the route and the population of the towns through which they pass.

Mr. Saunders, for the people interested in the northern end of the route, said the report would be satisfactory to them. Supervisor Mitchell gave like assurance for the people at the southern end, stating, however, that the report is not one favoring any particular action, but in the interest of the county as an entirety. Mr. Snodgrass, for the county commissioners, also stated that the report meets with the approval of the body. He offered to take and present the report with data and map to the commission, stating that it is his purpose to visit Sacramento to be in touch with the highway commission and try to secure as early building of the road in this section as in any of the state.

To this Supervisor Mitchell objected, not because he had any doubt of Mr. Snodgrass' integrity, but that because of the friction that has been experienced over this highway routing he feared that the other route advocates might also present themselves before the state commission and more friction might be caused. He wanted the matter to go before the state authorities unsupported by special advocates and only with the official recommendations and data.

Mr. Saunders of the Kerman contingent expressed similar sentiments. Mr. Snodgrass declaring that he was not aware that there had been any friction with his offer to appear before the commission as the official bearer of the documents, but said he would only appear as a commissioner in the general interest of expediting commencement of the work.

Supervisors Johnson and Johnson were specially deputized as a committee to prepare the data generally asked for by the commission and the other specially called for by the second suggested route. The map has been drawn and all the documents will go forward this afternoon by mail and will then be up to the state commission to decide finally upon the routing through the valley.

**BONDHOLDERS TO GET  
INTEREST MONEY SOON**

\$2400 to Be Paid Local People Interested in Granger Interurban.

Twenty-four hundred dollars, interest due on the bonds of the Fresno, Hanford and Summit Lake Interurban Railroad Company, held by local people, is expected to arrive from the Hudson Counties Company today or tomorrow, according to information given out yesterday. The officers of the company were notified a week ago that the money was coming.

Last week a small amount of money came for construction but some of this was diverted by the local officials to pay a portion of the bondholders. The balance will receive their interest money when the \$2400 arrives.

The officers of the company and the attorney in New York, claim they have secured an agreement from the underwriters in Philadelphia to underwrite

the bonds and that they have been underwritten. It is said that some money has come from the underwriters but this is only a very small amount.

## POSTAL SAVINGS BANK DEPOSITS TOTAL \$800

More Than Twenty Present  
Coin in Bakersfield on  
Opening Day.

BAKERSFIELD, Sept. 25.—The Bakersfield postal savings bank is in operation and the deposits on the first day totaled nearly \$800. There were more than twenty persons presenting money for deposit but several had amounts in excess of \$100 and had to be turned down by Postmaster Edmunds. A. M. Koepke was the first depositor, placing \$5.50 with Uncle Sam to draw interest at 2 per cent. The bank does not accept deposits over \$100 and one person may deposit only \$100 in any one month and not over \$500 in any one year, unless the deposit is used to purchase government bonds which draw 2½ per cent in bonds which more money may be placed in the government's care. Indications point to the bank being a great success. Only one foreigner made a deposit the first day. He was a Greek and turned in \$100. The bank accepts only currency and coin. No checks will be accepted.

## "IN MENUA LAND," GREAT HIT AT TEAL'S

Musical Revue Cleverly  
Costumed and Full of  
Catchy Songs.

Raymond Teal offered for the play goes to a capably house last night "In Menua Land," at Teal's theater, without doubt the classiest musical review ever attempted at popular prices. The show would have done credit at regular road show prices and only goes to show what can be done with good hard work and up-to-date principals and choruses. The show was costumed to the minute and vested with beautiful scenery. The plot laid in Mexico was a scream from the rise to the fall of the curtain and the idea of an American newspaper correspondent going into Mexico and attempting to organize an army and unloose them brings forth laugh after laugh till one's sides ache.

The musical numbers were many and especially fine. "Havana," sung by M. Davis and Mr. George Chesbro was the classical hit of the night. The choruses have been greatly enlarged and no doubt this will prove a record breaking week for Teal. This bill will run all week with the Chorus Girl Contest Wednesday night and usual Saturday and Sunday matinee at 3 p. m.

## FRECKLES

Don't Hide Them With a Veil; Remove  
Them With the New Drug.

An eminent skin specialist recently discovered a new drug, othine—double strength, which is so uniformly successful in removing freckles and giving a clear, beautiful complexion, that it is sold by Patterson Block Pharmacy under an absolute guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first night's use will show a wonderful improvement, some of the lighter freckles vanishing entirely. It is absolutely harmless, and cannot injure the most tender skin.

Be sure to ask your druggist for the double strength othine; it is this that is sold on the money-back guarantee.

# Oil News from California Fields

## WITHDRAWAL ORDER IS IN FORCE AND EFFECT

Taft Attorney Is Notified of This By General Land Office.

BAKERSFIELD, Sept. 25.—The Bakersfield land withdrawal order of September 25th, 1909, is legal and in full force and effect, and patents will be issued to all persons who have made development for oil on withdrawn lands after this date.

This is the substance of a message received by W. E. Sothell, a Taft attorney from the general land office at Washington. Patents will be denied on such land regardless of the discovery of oil.

Sothell has a case in the land office which may be made a test case and several other cases are pending. The case will be appealed to the Secretary of the Interior. Who application is made for patent it is to be determined by the land commission whether or not it shall be issued. It is estimated that no less than 20 per cent of the land in the Midway field will be affected. Nearly the entire Elk Hills territory is so classified.

## PLANS MADE TO PUMP OLD LAKEVIEW GUSHER

Report In Bakersfield Is That Rig Is to Be Built in Near Future.

BAKERSFIELD, Sept. 25.—Word reaches here that the Lakeview people are preparing to pump the once famous gusher. It is intended to erect a rig over the hole and install pumping machinery as soon as possible in hopes of getting the gusher to pump again. The gusher has been silent for the past week, closing down of its own accord after a continuous period of activity of 34 days.

## SISTER OF "STONEWALL" JACKSON IS DEAD

BECKHANNON, W. Va., Sept. 25.—Mrs. Laura J. Arnold, aged 51, the only sister of the late General "Stonewall" Jackson, died yesterday at the city hospital here.

She was born in Clarksburg, Va., now West Virginia, in 1826, and was married in 1843 to the late Jonathan Arnold of Beverly, Randolph county.

## The Cleanest Coal

We have three kinds of coal that are unusually clean. We have Rock Springs, Rockvale, and Purity Coal, three kinds that burn freely and at the same time make a minimum of ashes and practically no clinkers at all. When you order coal, order one of these three kinds.

## She Had Consumption Was Dying; Now Well

Edman's Alternative is being used with success in the treatment of Tuberculosis. Persons who have taken it improved, gained weight, regained night sweats stopped, fever abated, and many recovered. If you are interested in more about it, we will put you in touch with some who are now well. You can investigate and judge for yourself. Read of Mrs. Gove's recovery.

GRIMM, Ind.

"Gentlemen: Thinking that perhaps a short history of the remarkable cure of my mother-in-law (Mrs. Anna Gove) might benefit some other sufferers, I hereby give the following testimonial: About September 10, 1909, she was taken sick with Catarrhal Pneumonia and continually grew worse, requiring a trained nurse. Night sweats were so bad that it was necessary to change her clothing once or twice every night. Her cough increased and got so bad that every body expected that she would not live much longer. The trained nurse (Mrs. Anna Trinen) informed me that she had Tuberculosis and nothing could be done for her. In January, when Rev. Wm. Borg, of St. Michael's Church, at Evansville, Ind., prepared for her death, he recommended that I get some Edman's Alternative, and see if it would not give her some relief. I then procured the Alternative, and gave her the first dose. The attending physician to give his diagnosis and he informed me that she had Consumption and was beyond all medical aid. When I added if he thought it was useless to try the Alternative, he replied that 'No physician could help her any more and I could not say about it.' So I immediately had Rev. Wm. Borg to send for a bottle. Practically without hope for recovery, I insisted that she try the Alternative, which she did. At the end of the first week's treatment, she got so bad that she refused to take any more of it, but the doctor advised her to keep on taking it, as it was the only thing that might help her. I am glad to say now that she kept on and soon began to improve. Now, she works as hard as ever, weighs about 150 pounds heavier than she ever did before. She looks as well as in good health. She frankly says she owes her life and health to Edman's Alternative. I am glad to have her get all times and recommend it highly." (Signed Affectionately) J. S. GRIMM.

Edman's Alternative is effective in Bronchitis, Asthma, Croup, Whooping Cough, Lung Troubles, and all other lung diseases. It is a powerful expectorant, and breaks up all lung troubles. For sale by all leading druggists, or by booklets sent free and written to Edman's Laboratory, Philadelphia, Pa., for additional evidence.

## LAKEVIEW ANNEX CO. LEVIES ONE CENT ASSESSMENT TO KEEP UP WORK.

BAKERSFIELD, Sept. 25.—Under an attachment secured by the Southern Investment Company, the property of the Lakeview Annex Oil Company, on section 32, 11-23, is to be sold at sheriff's sale on October 11th. The investment company originally promoted the Lakeview Oil Company and a well was drilled on the northeast quarter of section 32. It was down 2400 feet and a year ago was reported to be in paying sand, but failed to come up to expectations. Subsequently it was drilled to 2900 feet and then abandoned. The attachment calls for \$15,025.

The Lakeview Annex Oil Company, operating near the once celebrated Lakeview gusher and whose stock is held largely in Los Angeles, is in need of funds for continuing operations and has levied its first assessment calling for 1 cent a share.

The Midway Oil Company, on section 28, 31-22, near Fellows, has a 125-barrel well at 1250 feet, the oil being about 15 to 16 gravity.

The Hule-McLeod people, on section 5, 35-23, has over 200 feet of oil sand in well No. 7 at 2500 feet.

Well No. 6 of the Rock Oil Company, on section 23, 31-22, has been perforated and will be put on the pump shortly. No. 8 is down 1920 feet with 8 1/2-inch casing.

The Dawson Oil Company, drilling with a rotary, is down close to 900 feet on section 6, 11-23. Well No. 1 is doing about 300 barrels a day of 22 gravity oil.

Unable to recover the lost drill pipe, the Bulk, on section 32, 31-23, has resumed drilling. The Midway-Pacific Oil Company, operating on section 24, 31-22, has overcome the fishing trouble and resumed drilling.

The Boston-Pacific Oil Company, operating on section 32, 31-24, has the 8-inch casing down over 400 feet with prospects good for a fine well.

The Midway Five Oil Company, on section 5, 32-23, is going down with 12-inch casing in well No. 3 and has reached a depth of over 1400 feet. Wells 1 and 2 are making 300 barrels daily.

## AUGUST WELL IS DOING ABOUT 2500 BARRELS

Oil Flows Between Casings; Management Has It Under Control.

The August Oil Company's well in the Maricopa flat, which entered the big sand a few days ago, was started up at 7 o'clock last night, according to word received here, and was doing about 2500 barrels a day. The oil is flowing between the casings. While the well was being made ready for the start, it broke loose today and flowed at the rate of 12,000 barrels a day for about an hour. It was shut down, however, and put in control. It was under perfect control last night. The August Oil Company has been working seven months to complete this well.

## Absorption Process Makes Faces Young

(From The Hema Meker.) Success has at last come to scientists who for years have sought some effective method of removing the outer facial skin in cases of unsightly complexion, which would be both painless and entirely non-injurious. The new process is so simple, the means so ordinary, so inexpensive, the wonder is that no one had discovered the same long ago.

It has been amply demonstrated that common mercurized wax, to be had at any drug store, completely removes, by gentle absorption, all the useless, lifeless cuticle, showing the youthful, rose-like skin underneath. The mercurized wax is applied at night—like cold cream, but not rubbed in—and washed off in the morning. This absorption also cleanses clogged pores, increasing the skin's breathing capacity and capillary circulation, preserving the tone, color and natural beauty of the new skin.

## POSAM STOPS ALL ITCHING

Relieves Immediately and Quickly Cures All Skin Diseases

The terrible itching attending eczema and other skin diseases, which entails sleepless nights and robs sufferers of all pleasure, is stopped at once by Posam. Pleasant shimmer comes as a welcome relief from distress. Soon a complete cure is effected, for the healing powers of Posam are marvelous. Posam is a perfect antiseptic, kills germ life and contains nothing to injure the most delicate skin. Its success is greater than that of anything used for similar purposes. Acne, blemishes, itch, itter and like diseases are cured by Posam. Pimples and minor blemishes are eradicated after a few applications; the complexion, red nose, etc., being cleared over night. Posam is sold by all druggists. H. H. Monroe & Co., and all druggists. Or the Emergency Laboratories, 22 West 25th Street, New York, will send a sample free to anyone who will write for it. This is sufficient to show results in twenty-four hours. Posam is a delightful for every skin disease, purpose and being medicated with Posam, is rendered antiseptic, preventing infection. Large tube, 25 cents.

## CANADIAN WELL BEING BRIDGED UP TO SHELL

Hole Is to Be Cemented Off at 2810; Oil Men Look for New Gusher.

COALINGA, Sept. 25.—The Canadian Contingent well, 8, 21-15, which was drilled into gusher sands in the South field last week, is being bridged up in a shell and the 8-inch casing will be cemented about the end of the week. The water was shut off in the 10-inch casing, but it was feared that it would not stand the outside pressure, so that after the well started to flow nothing was done except to pull the casing up off the bottom in the hope that the well would bridge.

Several blow-outs occurred, and the last one sanded up the hole. When the sand was bailed out, it was drilled down 233 feet and filled up to 2810 feet with rocks and iron. The 5-inch well will be cemented off at that depth on a four foot shell. The cement will be allowed to stand for about fifteen days, and oil men who saw the first action of the new gusher look for another Silver Tip when it is drilled in.

## AGENCY DIRECTORS TO GATHER NEXT FRIDAY

Third Attempt Made to Hold Meeting May Bring Out Quorum Number.

BAKERSFIELD, Sept. 25.—The big event of the week in California oil circles will be the meeting of the Independent Oil Producers' Agency in Bakersfield next Friday. Three directors in charge have sought to gather a quorum in this city but have failed. The recent meeting was attended by about 100 men but as the membership is 150, 75 were required for a quorum and it seems impossible to get this number of Agency men together at one time, in spite of the fact that the meeting will discuss such a vital question to the independent producers as the disposal of oil by storage to clear the already overladen pumps and make way for still further production and development.

The oil storage company plans are well in hand and at the last meeting the objections raised by individual members were taken up and discussed and at the end of the informal gathering it was pretty well established that everybody was satisfied and in for the proposition.

Besides the storage, the question of reducing the membership of the directorate to half to admit of it being easier to have a quorum, is to be disposed of. It is assured that a large number of Coalinga members of the Agency will be here and if a majority of the Kern county men are on hand, a majority meeting is assured.

## TAFT SALOON MEN ARE ORDERED INTO COURT

First National Bank of Taft Opens Doors for First Time; News Notes.

TAFT, Sept. 25.—The Taft saloon men who are being sued by the Southern Pacific company for restitution of the premises for violating the liquor clause in the deeds, have been notified to appear in court at Bakersfield, October 2nd and show cause. The saloon men have retained Bowen Irwin and Thoman & Hinger to represent the railroad.

The First National Bank of Taft opened its doors today and did a nice business. It occupies the old Oil and Metals Bank property.

Ollie Gotchett of Maricopa and George Barr have leased the Blaisdell opera house from the West Side Athletic and Amusement Club and will hold boxing contests once a month. Nightly vaudeville and motion pictures will be staged and the management will also get several John Cort shows.

## COMPANY LEASES LAND IN VENTURA

LOS ANGELES, Sept. 25.—The 224-acre lease of the Salt Marsh Canyon Company, in the light oil district of Ventura county, near Santa Paula, has been optioned to the Shell Petroleum Company, which company will take possession on or before December 1st. This lease now possesses four producing wells, the oil from which is being regularly delivered to the Union Oil Company at a good price, the product being of high gravity and suitable for refining purposes. The lease lies half way between Wild Bill Canyon, where the Union brought in a 600-barrel well several years ago, and Wheeler canyon, where the Henderson Union Oil Company recently completed two good wells and is drilling another. The Shell Petroleum Company, which is headed by W. Nelson Shell, editor and publisher of the Oil Age, and one of the best preed oil men in California, has another lease near Newhall. G. W. Faulkner and F. H. Dunbar, both well known business men of Santa Paula and vicinity, are president and secretary, respectively, of the Salt Marsh Canyon Oil Company, which has been operating the lease for several years past.

GRUDGE FENDS IN MURDER LIVINGSTONE, Va., Sept. 25.—James A. Pettit of Roanoke, 38 years old, a colonel on Governor Mann's staff, was shot and killed by Benjamin Hubbard on a hotel porch here today. There was an old grudge between their families. Hubbard fired six shots at Pettit, all taking effect.

## BEAR CREEK COMPANY BRINGS IN NO. 7 WELL

Producing About 200 Barrels Per Day; Directors to Keep Drilling.

BAKERSFIELD, Sept. 25.—The Bear Creek, operating near Taft, has recently finished its No. 7 well and is producing about 200 barrels of oil. The Bear Creek's monthly production is about 20,000 barrels and the company has no trouble in disposing of the output.

The Bear Creek, it is said, will discontinue drilling for the present, as it is considered wise by the directors to allow the company's earnings to accumulate in order to repay money borrowed to close up an option on eighty acres which cost \$300 an acre, or \$24,000. The land is estimated to be worth \$1,500 to \$2,000 an acre and the margin of profit left the company is big. The Bear Creek is also getting royalty from a lease to the Midway company, and this company will continue drilling, figuring the territory being thoroughly proven and making it the more valuable.

## EMPLOYEES OF MOHAWK SUDDENLY DISCHARGED

All Work on Lease Stopped; Report Says Change Is to Be Made.

COALINGA, Sept. 25.—A big surprise was sprung on the employees of the Mohawk property last week when word was received from the San Francisco office for the bookkeeper to notify all of them that they were discharged. All of them came into Coalinga with the exception of the bookkeeper and two plumbers, and the entire property was shut down with the exception that No. 1 was kept on the pump, and the boarding house kept running.

When William McKnight, the superintendent, returned from a hunting trip to Idaho, Friday night, he found the lease practically deserted, and also found that the order included him as well as the balance of those formerly employed.

No reason was assigned for the wholesale discharge, but it is whispered that a complete change in the force is to be made, with Orval Geisler, at present bookkeeper of the Coalinga-Coalinga, as superintendent of the Mohawk property. McKnight is known to be one of the best informed oil men in the water and he at a loss to account for the action as are those who worked under him.

## SANTA FE RIGGING FOR 2 NEW WELLS

BAKERSFIELD, Sept. 25.—The Santa Fe is rigging up preparatory to starting two new wells on section 26-31-22 near Fellows. It is stated that the Santa Fe wells near Fellows have started flowing again since the Hawaiian gusher has been active.

The Moral Oil Company has a good well on the southeast quarter of section 26-31-22, there being 32 feet of live sand in the hole. The well is 1252 feet deep. The well is finished with eight inch casing and is doing 190 barrels a day.

J. T. Lehman has taken charge of the Starlight, K. & C. oil properties and the North Midway Water Company.

## PLAINTIFF WINS ACTION FOR \$500

BAKERSFIELD, Sept. 25.—The Second District Appellate Court has affirmed the decision of Superior Judge J. W. Mahon in the oil case of D. R. Evinger against T. L. Moran, in which the plaintiff is awarded judgment for \$500. The defendant appealed and the case was in court for several years. According to the complaint, Evinger was to pay Moran \$4000 for some oil land in the event patent was issued to the land. Some money was loaned, it is stated, by the plaintiff to Moran and the well was to be repaid when the money was paid over for the land, so it is stated. The complaint made no allegation concerning the payment of the money for the land, but it is said such was not the case, the land in question not being patented.

## SUNSET SECURITY HAS GOOD SHOWING

BAKERSFIELD, Sept. 25.—Sunset Security Company, operating on section 25-31-23, is down 1,987 feet with 8-inch casing and has run into a great deal of gas and some oil. Expectations are that they will strike oil most any time. It was thought at the time the well was started that 2,000 feet would be sufficient to test the worth of the country and the outlook is most promising. The hole is in excellent shape and it is the belief of the operators that they could go down 1,000 feet further if necessary. The 10-inch casing was landed at 1,957 feet and the water was shut off.

## REPUBLIC DOING ABOUT 200 BARRELS

COALINGA, Sept. 25.—The Republic No. 1 well is now producing over 200 barrels per day on the pump, and the installing of the smaller tubing has overcome the sand trouble to a large extent, and it is believed that very little trouble will be encountered from that cause hereafter. Sand gave so much trouble that it was almost impossible to get the well producing regularly, but by putting in 2-inch tubing the gas escapes through the casing and the sand goes to the surface so that it practically flows.

## COALINGA ROYAL GETS VERY LIGHT OIL SAND

Drill Passes Through Seven Feet at Depth of About 1050 Feet.

COALINGA, Sept. 25.—J. E. Strong, and J. H. Stearns, who are heavily interested in the Coalinga Royal, 8, 19-13, were in Coalinga Saturday looking over the property, and making sure that the well is in light oil of which they were sent samples. They are both heartily pleased with the showing of the well, and believe they will shortly have a good production of the same light oil produced from the "Home" sands.

The drill went into a very light gravity oil at 1600 feet, getting seven feet of this sand. Drilling was continued and at 1150 feet the bit, drilling dry, went into the second sand, which is said to be 49 gravity, and is very little darker than distillate. They went only two feet into the sand and are awaiting word from Los Angeles whether to finish up the well there or go on down to third sand, which is said to be 75 feet deeper.

Bert Williams, the superintendent, says that the formation is exactly the same as the Oil City sands, and is positive that a good producer will be brought in when the third sand is reached. Williams drilled for the Coalinga Oil Company, and is acquainted with the formation in that part of the field, in fact, he worked on the second well drilled in the field, for Chandler & Chandler.

The well is down in 64-inch casing, and the water is completely shut off. The lower sand was drilled into dry, and if they go down to tap the third sand, no water will be carried in the hole.

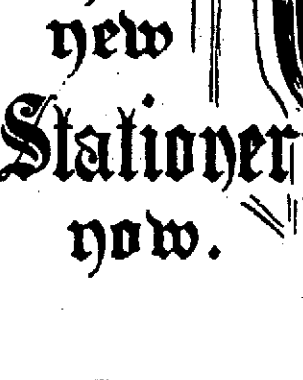

Williams, Strong and Stearns were in Coalinga Saturday displaying a bottle of the oil, and from appearance and smell it looks to be as light gravity as they claim for it.

If they act and are sore and tender, S. B. Corn Paint will set them right, only at Smith Bros.

Kodaks and supplies. Finishing for amateurs. C. H. Staples, 3940 Mariposa street, Fresno, Cal.

## VERNON WINS GAME FROM SENATORS IN SOUTH

Takes Last of Series From Sacramento and Closes in on Portland.

LOS ANGELES, Sept. 25.—In a game featureless except for the fact that the home team won, Vernon defeated Sacramento today, 4 to 1. Raleigh was hit hard in several innings, good fielding kept the runs down, while on the other hand Vernon, getting but six safe hits, made them count four runs. The base work of the team helped materially to win. Score:

## LEAPS FENCE IN RACE; HORSE IS KILLED INSTANTLY

COLUMBUS, Sept. 25.—The event of the day at the Columbus Driving Association meeting was the death of Pansy Silver, the Chestnut mare which won a six-hundred race at Detroit last week. She was driven by Charles Valentine of Columbus and acted badly in the first heat. In the second heat she was in the bunch next to the rail on the back stretch when she suddenly jumped the fence into the ditch and was dead in an instant. Valentine escaped uninjured.

RESULTS  
First race, 3-year-olds, 3-year-olds, 2 in 3, purse \$3,000. Miss DeForest won in straight heats. Best time, 2:03 1/2. Fred DeForest second. Elect America third.  
2:07 trotting, 3 in 5, purse \$1,200. Dottie Archuleta won in straight heats. Best time, 2:04 1/2. Charlie Mitchell second. Spirit Queen, third.  
2:10 trot, 3 in 5, purse \$1,200. Oakdale won third, fourth and fifth heats and race. Best time, 2:12 1/2. Hanna Louise won first and second heats. Best time, 2:10 1/2. Director Guy third. 2:08 pace, 3 in 5, purse \$1,200 (unfinished). Heir at Law and The First won second and third heats. Time, 2:04 1/2. Ella M. won first heat. Time, 2:04 1/2. Babe third.

## GATES' GLINTS

If the National League is class A, is Anheuser Busch?  
(Draw two, Fritz.)  
If a player on the Salt Lake team had thirty-two errors this season how many has he got?  
(Father, dear father, come home with me now.)  
If old man Kuhn always sits in the grandstand and pulls for Cleve does the boy with the orange?  
(It's the best you can get on Sunday.)  
Manager Klein  
Went out with his nine  
We'll win this game fellows, says he,  
But when it was over  
This was the score  
"BRTA" nine, "ATAC" three.

## Cheap Fuel

Gas is the cheapest fuel. Your monthly gas bill will not exceed your bill for coal, wood or gasoline; and at the same time when using gas you cut the amount of work required in half. Think of it. Absolutely nothing to carry in to the stove or no ashes to carry out.

Try cooking with gas.

## HAZEL V. HOTCHKISS IN EASTERN TOURNEY

BOSTON, Sept. 25.—The presence of Miss Hazel V. Hotchkiss of Berkeley, Cal., the national women's tennis champion and several players from the West and South made the annual women's tennis championship, which opened today, one of unusual interest.  
The Longwood challenge cup for women is held by Mrs. B. L. Raymond of Boston, defeated Miss C. S. Gourney of Boston; Miss Eleanor Sears, Boston, defeated Miss M. Southworth, Buffalo; Miss Edith Rotch, Boston, defeated Miss A. Baker, San Francisco.  
In the second round Miss C. Haring, New York, won from Miss H. Weston, Springfield, 6-0, 6-0, and Miss Eleanor Sears, Boston, won from Miss G. Pendleton, Cincinnati, 6-1, 6-4.

## MISS HOTCHKISS PLAYED MISS UNDERWOOD OF PROVIDENCE AND ALLOWED HER OPPONENT BUT ONE GAME IN THE TWO SETS.

In the first round Mrs. Barker Walcott of New York defeated Miss C. S. Gourney of Boston; Miss Eleanor Sears, Boston, defeated Miss M. Southworth, Buffalo; Miss Edith Rotch, Boston, defeated Miss A. Baker, San Francisco.  
In the second round Miss C. Haring, New York, won from Miss H. Weston, Springfield, 6-0, 6-0, and Miss Eleanor Sears, Boston, won from Miss G. Pendleton, Cincinnati, 6-1, 6-4.

## TOURNEY OF CHESS MASTERS IS ENDED

CARLESDAD, Sept. 25.—The final round of the chess masters tournament was played here today. Teichmann took first place with eight and a half points. The final record:  
Teichmann, 15; Rubinstein, 14; Schlechter, 17; Botvinnik, 10; Marshall, 15; Nimzowitsch, 15 1/2; Vidmar, 15; Alekhine, 15; Duras, 15; Tartakower, 15 1/2; Cohn, 15; Eise, 15; Suetting, 15 1/2; each; Bohn, 15; Salwe, 11 each; Johner, 10 1/2; Rubinstein, 10 1/2; each; Cholimskis, 10; Alaph, 10; Jaffe, 10; each.

## EVANS, JR., WINS IN GOLF

MANCHESTER, Vt., Sept. 25.—Charles Evans, Jr., Edgewater, won the 36 hole finals for the Ekwavok cup at the Ekwavok Country club links this afternoon when he defeated F. A. Martin, Ekwavok, 3 up and 2 to 1.

## Auction--Auction CONE RANCH

BIG AUCTION SALE of the personal property, consisting of about 200 head cattle, about 200 head horses and brood mares, 100 head of Hereford cattle, weapons, harness, fifth chains, and stretchers, plows, and harrows, moving machines and rakes, one traction engine (cost \$600.00) and other farming implements too numerous to mention. Terms of sale all sums of \$50.00 and under, cash, over that amount eight months' time with a bankable note drawing 7 per cent interest. This great sale takes place on the CONE RANCH, located five (5) miles east of Red Bluff, Tehama County, Calif., October 2nd, and will continue daily until sold. Free lunch for men and women. CONE RANCH CO., owners, Walter Hink, Pres. and Manager, W. G. Harris, Auctioneer.

## GIANTS WIN FINAL GAME OF SERIES WITH REDS

Cubs Win From Boston After Hard Battle; Pirates Drop Down.

CINCINNATI, Sept. 25.—New York won the final game of the series with Cincinnati. Randall allowed the home club but four scattered hits. New York hit Suggs hard, but sensational fielding, especially throwing in bases by McLean, held the visitors' score down. Score:  
New York.....3 11 1  
Cincinnati.....0 4 1  
Randall and Meyers; Suggs, Fromme and McLean.  
Umpires—Klein and Brennan.

CHICAGO, Sept. 25.—Chicago defeated Boston today. The deciding run was the result of Thornton's error, a stolen base and a single. The other runs made by the locals were the outcome of two bases on balls, a sacrifice and bunched hits. Two games were scheduled, but the first was called off on account of wet grounds. Score:  
Chicago.....12  
Boston.....0 2 0  
Young and Rariden; Richie, Cole, Brown and Archer.  
Umpires—Higley and Munner.

PITTSBURGH, Sept. 25.—Brooklyn defeated Pittsburgh today. Pittsburgh used four pitchers and three pinch hitters. Brooklyn won in the fourth inning when they scored three runs off Hendrix, who was relieved after two men had faced him, each getting a hit. Score:  
Pittsburgh.....4 11 2  
Brooklyn.....5 11 3  
Hendrix, Perry, Camnitz, Gardner and Simon; Rucker and Miller.  
Umpires—O'Day and Emslie.

## LAKE CITY RACES

SPOKANE, Sept. 25.—The second disqualification of the Lake City meeting occurred at the close of the third race today when Blawie, who finished second, was placed third by the judges, and Jockey Hopkins, the premier rider of the meeting, was suspended for three days. Hopkins rode Blawie across in front of Evelyn, dropping that filly to third place. SUMMARY:  
First race, six furlongs, selling:—Mazie Girl, (Cavanaugh) 3 to 5, won; Southern Gold, (Hawley) 11 to 1, second; Sir Fred, (Hawley) 12 to 1, third. Time, 1:14 1/2.  
Second race, five and a half furlongs, selling:—Fred (Hawley) 3 to 5, won; Ben Crockett, (Hawley) 11 to 5, second; Grey, (Groth) 4 to 1, third. Time, 1:14 3/5.  
Third race, five and a half furlongs, selling:—Lord Clinton, Rey El Torvar, Descendant and Glendacore finished as named.  
Fourth race, seven furlongs, selling:—Fred Mulholland, (Buxton) 9 to 5, won; Blondy (Hawley) 12 to 1, second; Donique, (Cavanaugh) 18 to 5, third. Time, 1:27 5/8.  
Fifth race, six furlongs, selling:—Twickenham, (Cavanaugh) 7 to 1, won; Caution, (McEwen) 7 to 1, second; Fencer, (Anderson) 7 to 1, third. Time, 1:14 3/5.

## A BUSINESS PROPOSITION.

"Of course you've met Mr. Levinsky, he's one of the wealthiest men of our town."  
"Yes, I've met him in a business way."  
"Maybe he is one of your customers."  
"No, he's one of your customers."  
"No, he's merely my wife's father."  
—From Norman E. Mack's National Monthly.

## BAT NELSON'S VICTIM

Billy Nixon

## MADERA COYOTES ANNEX FAST CONTEST FROM MODESTO REDS

MADERA, Sept. 25.—By the decisive score of 6 to 0 the Madera Coyotes defeated their bitter rivals, the Modesto Reds, before a large and enthusiastic crowd that crisscrossed the local park. The Coyotes outclassed the Reds in every department of the game, but interest was always at a high tension until the last inning, when the Reds broke through the Coyotes' defense and scored three runs. The Coyotes, who had been leading 6 to 0, were unable to hold their lead in the ninth inning, when the Reds scored three runs to win the game. The Coyotes' pitcher, Del Traeger, had a splendid control and when he located the plate he was never out of the game. The Reds' pitcher, Del Traeger, had a splendid control and when he located the plate he was never out of the game.

TRAEGER ALLOWED A WELL DISTRIBUTED HITS, SOME OF THE SCRATCHY VARIETY AND STRUCK OFF FIFTEEN OF THE REDS' SLUGGERS, WHILE PHIL MOBLEY WAS TOUCHED UP FOR ELEVEN FEARFUL SWATS, BUT SOMEWHAT REDEEMED HIMSELF BY HANDLING TWELVE OF THE COYOTES TO THE BENCH AFTER BRONCHING ONE NEVER TO BE FORGOTTEN BY THOSE DANGEROUS REDS. LEGGETT FOLLOWED PRASCOLO WITH A GROUNDER TO MOBLEY, WHO IN HIS ANXIETY FOR A DOUBLE PLAY ERRED AND BOTH RUNNERS WERE SAFE. THEN A HIT BY MOBLEY, TWO BURGERS AND ONE NEVER TO BE FORGOTTEN BY THOSE DANGEROUS REDS. LEGGETT FOLLOWED PRASCOLO WITH A GROUNDER TO MOBLEY, WHO IN HIS ANXIETY FOR A DOUBLE PLAY ERRED AND BOTH RUNNERS WERE SAFE. THEN A HIT BY MOBLEY, TWO BURGERS AND ONE NEVER TO BE FORGOTTEN BY THOSE DANGEROUS REDS.

IN THE THIRD INNING, AFTER BOTH TEAMS WERE PLAYING SHUT-OUT BALL, HEINE PRASCOLO WITH A SAFE DRIVE OVER SECOND BASE STATED ONE OF THE MOST SENSATIONAL BATTING RALLIES EVER SEEN ON THE LOCAL DIAMOND AND ONE NEVER TO BE FORGOTTEN BY THOSE DANGEROUS REDS. LEGGETT FOLLOWED PRASCOLO WITH A GROUNDER TO MOBLEY, WHO IN HIS ANXIETY FOR A DOUBLE PLAY ERRED AND BOTH RUNNERS WERE SAFE. THEN A HIT BY MOBLEY, TWO BURGERS AND ONE NEVER TO BE FORGOTTEN BY THOSE DANGEROUS REDS.

## ATHLETICS DOWNED THOUGH THEY SLAM BALL

Detroit Gains Eight Points on Leaders in American League Race.

PHILADELPHIA, Sept. 25.—Detroit won from Philadelphia here today. The visitors scored their runs in two innings by hitting four of their five singles with passes, a double steal by Gahner and Stange and two sacrifice flies. Mullin, who was given perfect support, kept Philadelphia's hits scattered and the runs were kept down despite the fact that the seven safeties included a home run, two doubles and a pair of triples. Score:  
Detroit.....5 6 0  
Philadelphia.....3 7 1  
Batteries—Mullin and Stange; Dafforth, Morgan and Livingstone, Left.

WASHINGTON, Sept. 25.—Washington gave Hughes poor support and Cleveland won today's game. Conroy's work at third and five double plays were features. Score:  
Washington.....2 7 4  
Cleveland.....3 9 0  
Batteries—Hughes and Henry; Blanding and Easterly.

NEW YORK, Sept. 25.—New York today easily defeated Chicago by bunting hits with Scott's passes. Score:  
New York.....2 6 3  
Chicago.....7 8 2  
Batteries—Scott, Havlic, Lange and Bluck; Fisher and Williams.

BOSTON, Sept. 25.—Boston today took the second game of the closing series from St. Louis by another one-sided score. Score:  
Boston.....3 11 1  
St. Louis.....2 3 5  
Wood and Nunnamer; George and Stephens.

## NO CLUE FOUND TO ESCAPED PRISONER

Lyman, Financier, Had Carefully Planned His Get-Away.

SAN FRANCISCO, Sept. 25.—Every available deputy United States marshal and city detective on both sides of the bay united in a hunt today for Dr. John Grant Lyman, the 236-pound quagga, who escaped on crutches from an Oakland hospital last night while awaiting removal to Los Angeles on the charge of using the mail to defraud.  
Lyman's escape was carefully planned, according to the officers. When his guard, C. M. Courtwright, left his bedside on a personal errand, Lyman disappeared through a window with his belongings. Fresh automobile tracks outside indicated that a car was awaiting him. The next important piece of evidence was furnished by a gateman at the Oakland ferry who remembered seeing a man answering Lyman's description, in the company of two women and another man, board the 11:10 boat for San Francisco. One of the women ran up to the gateman and asked him to wait a moment before closing the door there was a "sick man" coming.  
Marshall C. T. Elliot immediately began search on the theory that Lyman had planned his disappearance with the help of friends on the outside. Early today he questioned Courtwright and W. W. Spurrier, the guard relieved by Courtwright, the last night. They were hired especially for the Lyman case and had the power to arrange their own hours. Both men have been frequently employed on similar cases.  
Lyman broke his ankle in an attempt to escape two weeks ago. While being taken to the Alameda jail, being unable to furnish the bond fixed by the United States commissioner at \$500, he persuaded the deputy escorting him to join him in a glass of soda in a drug store and then made a dash for the street, while the officer's feet

## FOWLER WILL TRY TO FLY THROUGH STORM

Unless Weather Absolutely Prohibitive, Journey to Be Resumed Today.

EMIGRANT GAP, Cal., Sept. 25.—In the face of the fact that it has been storming here all day, snowing and raining alternately, Captain Robert O. Fowler today declared that unless the weather conditions were absolutely prohibitive to the attempt he would resume his journey to the summit of Mt. Rainier tomorrow morning. The damage done to Fowler's biplane when he came to earth here yesterday was repaired today. The alterations to the engine, Fowler believes, will prevent the trouble that compelled him to land yesterday. He said that the experience of yesterday gave him valuable knowledge concerning air currents. He intends to start at 8:30 o'clock tomorrow and to reach an altitude of 2000 feet above this place before he begins his journey across the summit which is 7018 feet above sea level. Emigrant Gap is 5225 above sea level.

## SMALL BLAZE IN I. O. O. F. BUILDING

Fire starting from an electric motor in the Fresno Engineering Establishment, located in the Odd Fellows' building at the corner of I and Merced streets, at midnight last night, damaged the contents to the extent of about \$200. The fire was discovered by a man and he ran to police headquarters across the street and told them of the fire. The alarm was telephoned to fire headquarters upstairs. The blaze was quickly extinguished by Chemical No. 3.

Persons were buried in the glass. In his eagerness to board a moving street car he slipped and fell. As he could not receive proper medical treatment in the jail, Lyman obtained a transfer to a private hospital.

# FASHIONS—FANCIES—HOUSEHOLD

## WOOL EMBROIDERY THE VERY LATEST CRAZE

### The New Millinery Is Exploiting Foliage, Flowers and Fancy Bands In Needlework Designs

THE newest thing in millinery and trimming effects is the wool embroidery carried out in floral or conventionalized designs for bands and separate motifs. Indeed, flowers made of different materials and by various methods are one of the distinctive fancies of millinery.

On a piece of glazed lining draw the shape of your ivy leaf, Fig. 1. Along the entire outline of this leaf tack with the sewing silk a single thread of the dark green silk. Like the braid in point lace, this outline thread forms the foundation for the filling in stitch that follows. This stitch, which is

at the base of the leaf to form a stem, Fig. 2. Then with the dark shade of thread overcast the outline of the leaf so as to join the wire outline to the body of the leaf. The overcasting stitches must be worked very closely together so as to hide the wire, but in making them care must be taken not to put the needle through the lining foundation. Do not fasten the thread off at the base of the leaf, but leave enough to bind the wire stem.

Then, using the light shade of silk, work an outline embroidery stitch on the leaf, marking the principal veins. The leaf, which is now finished, can

out of the outline thread up to your starting point. When the overcasting is done all the untidy ends will be hidden.

All the ivy leaves are made by this method, but they should be made different sizes and slightly varied in shape. A good plan is to select a spray of natural ivy and draw the leaves from it. This spray will also be a guide for arranging the leaves on a frame when a sufficient number have been made.

A piece of millinery wire the length of your required spray forms the frame. After binding the stem of each leaf with the thread left over for the

od. Daisies and forget-me-nots are easy flowers for a beginner to try, as the flower can be made in one entire piece. Fig. 4 shows the pattern of a daisy.

The petals must be outlined in white thread or silk and worked in the same color in close buttonhole stitch. The center is outlined and then worked in the same way in yellow. The wire is tacked round the entire outline of the flower, as represented in Fig. 4. The overcasting stitch is done in white round the petals and in yellow round the center of the flower. The tacking threads are then cut away and the flower taken off the lining. A stem is made to it by putting a wire through the center of the flower. One or two stitches in yellow thread put in with a needle when the flower is finished will hide the wire showing in the center of it. Bind the stem with green and fasten one or two leaves to it. The leaves are made in green and by the same method as described above.

To make flowers such as pansies, chrysanthemums and roses it is necessary to do each petal separately, just as the leaves are made, with the exception of the veining. When a sufficient number of petals have been made the

### COOKERY NOTES

#### CORN CHOWDER.

Cut the corn from five cobs, leaving the grains as whole as possible. Mince five tomatoes and five green peppers, rejecting the seeds of both, and add five very small onions, also minced, if desired. Cook the onions a golden brown in bacon grease, then add the vegetables. Cover with boiling water, simmer an hour, season to taste and serve.

#### GINGER JELLY.

Into a lemon jelly, made as usual, stir as it begins to harden half a cupful of shredded preserved ginger, or, if preferred, cut into small inch long pieces. Set away to harden. Serve with whipped cream flavored with just a drop or two of brandy.

#### TOMATO AND CHICKEN SALAD.

About six ounces of cold chicken, one pound of ripe, sound tomatoes, two lemons, two teaspoonfuls of chopped parsley, one teaspoonful of chopped tarragon, one gill of mayonnaise or other salad dressing. Mince the chicken

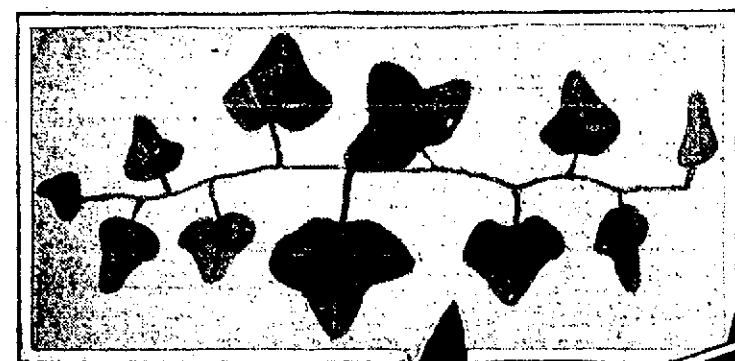

rather coarsely, removing the skin and gristle, and mix them with mayonnaise sauce. Peel and cut each tomato on to three or more slices according to its size. Carefully prepare the lettuce and arrange it prettily in the salad bowl with the tomatoes and place the mixture and the chicken in the center. Sprinkle over the parsley and tarragon. Cold veal or boiled rabbit, if tender, makes an excellent and inexpensive substitute for chicken.

#### MUSKMELON FRITTERS.

An unusual way of serving muskmelon for those who pursue the elusive dainty of change is as fritters. Pare the melon, of course, and cut in inch thick pieces. Put in a bowl, pouring on about a tablespoonful of good sherry wine. Let it stand three hours and drain off the juice. Add to the juice a pint of milk, two beaten eggs, a pinch of nutmeg, enough flour to make a fritter batter as usual. Dip the slices of the melon in this, then dip in hot fat long enough to brown delicately; drain carefully, dust with powdered sugar and serve very hot.

#### CHOCOLATE PUDDING.

Beat the yolks of six eggs very light and add a quarter of a pound each of ground almonds and sugar and grated sweet chocolate. Lastly stir in the whites of the eggs beaten to a stiff froth, then turn into a buttered mold and steam forty-five minutes. Serve with whipped cream.

nery, and the woman skillful with her needle can turn out some quite professional looking trimmings with little trouble.

In this branch of work realistic effects can be obtained by the employment of close buttonhole stitch. Each leaf and petal is worked upon a pattern with an ordinary sewing needle in exactly the same method as point lace is executed. The flowers can be made either with embroidery silks or in several wools. The only materials required besides are some stiff glazed lining, a spool of sewing silk, a spool of fine mounting wire and a roll of millinery wire.

As threads are easier to work with than silks, it will be wiser for a beginner to use them, and in order to grasp the principle of this work it will be as well to try making leaves first, as they are more simple to execute than flowers.

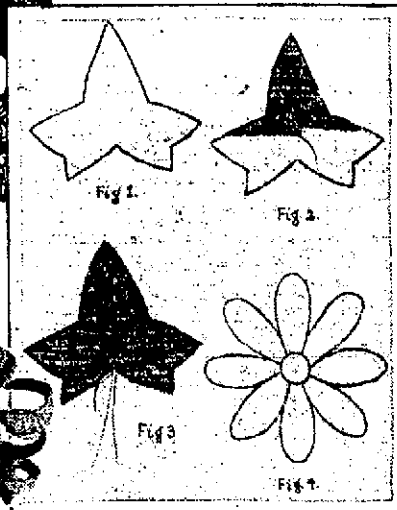

Ivy leaves always give good results. For the body of the leaf use a rather dark green and a lighter shade for the veining. Of course a skilled worker can introduce as many colors for shading as she desires, but good effects can be obtained when only two shades are used.

shown beginning in Fig. 2, is a close buttonhole one and is worked backward and forward until the entire space of the leaf is filled up. When this has been done tack round the outline of the leaf a thread of the fine mounting wire, leaving an inch or two

be taken off the lining by cutting and pulling out the tacking stitches at the back. It must be remembered in this work that no knots are ever made in the thread. When a fresh needleful is taken begin a little space from where you left off and run the needle in and

purpose twist the stem round the frame two or three times so as to hold the leaf in position. When all the leaves have been fastened on in this way bind the entire frame with the dark shade of thread.

Flowers are made by the same method.

flower can be built up by twisting all the little stems together. The twisted stems form the main stem of the flower. Each petal can, of course, be bent into any required shape owing to its wired outline.

Any one with a practical knowledge of point lace work can soon become skilled in making these flowers and leaves. The idea opens up a wide field to the homemaker.

## Season's Newness In Modes

THE striking new feature in this Parisian model is the boned sleeve, which is balloon shaped at the elbow, the fullness being stretched on a bone or reed. The bodice is in fichu effect, the drapery very flat over the shoulders and bordered with fringe. The small gimpes of sheer net trimmed with tiny buttons. The skirt has a tunic which wraps the figure in double lines, the edges of which are bordered with fringe and heavily weighted to make the draperies cling close to the figure.

Completing the dress is a small wrap in draped style, bordered with fringe

chiffon undersleeves, the white net gimpes and the broad fichu collar of white wool on the wrap. The coat seen in the cut is designed from the military dress worn by the East Indian during the days of the grand moguls. The model was created by Paul Poiret and is straight cut, the brilliant hued girdle or sash and the fringed trimmed fichu or scarf, which finish the neck of the coat, are all interesting features. This coat is very straight and forty-five inches long. The soft girdle holds the coat in at the waist line very closely, and the two crossing ends form independent sashes at one side. The

Mogul Sash—Crinoline Sleeve and Slashed Skirt

and finished with broad, flat fichu collar of white valours de laine. In addition to the fringe border there is a hemstitched facing of white cloth surrounding the basque back and front. This visite is developed in the crape in a beautiful shade of lavender blue. The fringe trimmings match in coloring. The only contrast is found in the pure white chiffon fichu, the white

model shown is carried out in Havana brown velvet and is lined with a yellow crepe de chine. The sash is of yellow crepe de chine with Persian design done in green and gold, and the fichu scarf is of green chiffon with pendant tinges in red, peacock blue, gold, brown, and orange, headed with rings, balls and ornaments in antique gold and silver.

## SKIRTS AND SLEEVES

### Changes In Them Kept Secret by Dressmakers

THERE is no point that dressmakers are so anxious to cover at the beginning of a season as that of new styles in skirts and sleeves. Questions of trimming may be left more or less to the individuality of the customer or to her particular requirements. Colors and materials are furnished by the wholesale houses, but the hang of the skirt and the cut of the sleeves must come from some authority that is unquestionably respected.

There are rumors now that skirts are fuller, but it is misleading to lay too much stress on this fact, for they are merely comparatively fuller. If one forgets the hobble skirt there is little added width in the new skirts. Most of the new models measure two yards and a half around the bottom. The bell skirt has been tried out this season, and with its straight, tight hip lines and slight flare at the bottom, it is very good style. Yet from the dressmakers' viewpoint there is a decided difference in the cut of skirts. Any suggestion of pulling in about the knees or below this point is quite done away with.

Now about sleeves. A number of the new ones are set in with seams, but the seams are always covered with some kind of shoulder trimming.

The peasant sleeve is receiving many modifications and is much smaller than it has been. It is now quite possible to make this sleeve rather narrow and with a high under arm effect.

Sleeves seem less wide and conspicuous than they were, but this may only be by comparison with the waists, which contain more fullness than has been the case. The three-quarter length sleeve seems to be coming into favor and is often made up of several parts and of several fabrics—a straight, loose top, an undersleeve and a puff.

### AN AID FOR THE INVALID.

A stick of the right sort will help an invalid in many ways. It should be strong yet light, with a stout iron hook on one end and a knob on the other. This will enable an invalid to adjust curtains, raise and lower shades and windows, push a rolling chair or move a screen and aid oneself in a variety of ways.

## PROPER WAY TO WALK

IT'S hard to walk gracefully in the present style of skirts, but it can be accomplished. Ankle movement is the secret of a graceful carriage. A stiff ankle results in the entire sole of the foot striking the ground simultaneously, giving a jarring, flat footed motion.

Shoulders thrown back, crown of head held high and chin well in are the rules to be observed above the waist line. This attitude gives the pedestrian a definite independent air that marks the man or woman of personality. Hands and arms should be left free, but the habit of constituting

## A STUNNING EVENING GOWN

### Changes In Them Kept Secret by Dressmakers

COSTUME OF SATIN AND JETTED NET.

THE evening gown illustrated is a charming model for the young matron. This winter jetted nets and laces are to be very much used, and the creation pictured is of black peau de soie satin and jetted black net.

## A HEADACHE CURE

### The Home Remedy Often Gives Speedy Relief

ARE you a sufferer from headache? Do you take powders to relieve the pain?

It may be said with little fear of contradiction from those who know the facts that if a cast iron law forbidding the use of any drug whatever in the treatment of headaches could be enacted and enforced there would be much less misery for the coming generation than there is for this.

A sufferer from repeated headaches who has found relief in headache powders or other harmless drugs may dispute this assertion, but the friends of one whose heart, poisoned by headache powders, has suddenly ceased to beat before its time look at the matter from another point of view entirely.

"Although various causes have doubtless been at work to weaken the hearts of the present generation, there can be no doubt that one potent influence has been the indiscriminate use of headache medicine," says a reliable physician.

In all cases of habitual headache recurring periodically a physician should be consulted that he may find the cause—eye strain, disease in the ears, nose, stomach or some other organ—and remove it if possible.

But the separate attacks of headache must be relieved if very severe. In these cases it is better not to resort to drugs unless drugs are taken under the special guidance of a physician. "Grandma's" remedies are best.

In the congestive headache marked by throbbing and made worse by stooping or lying down a cold towel or an ice bag applied to the head, a hot water bag to the spine, a mustard plaster to the back of the neck or a hot mustard foot bath—one or more will often give relief when drugs will fail.

In the anæmic form of headache marked by pallor, in which the pain is less severe when lying down, massage of the head or the application of warm cloths to the head and face will be found a remedy.

A threatened bilious headache may be ward off by a dose of salts, and one due to overuse of the eyes or eye strain will usually, if taken in time, be arrested or mitigated by the rest of the eyes and a long walk in the open air.

### A NEW BLOUSE FRILL.

One of the new frills, which is detachable and goes down the front of the blouse, has battlements of embroidery at the inner edge. There is a buttonhole in each one, which is put over a button on the blouse. The latter should be of white crocheted instead of pearl. The frill is double, with the upper one shorter than the lower one, and is scalloped and buttonholed at the edge.

### MENDING A SWEATER.

To mend a hole in a sweater use yarn as for darning. Start at the top and chain stitch down the length of the hole with a darning needle, catching each loop securely. You will have a neat piece of work, and no one will notice where the hole has been.

## PARISIAN THEATER WRAP

SENSATIONAL WRAP OF DULL BLUE CRAPE.

THE East Indian coloring and characteristics have been used in this new wrap, which is made of dull blue chiffon embroidered in bright yellow silk. The motif of yellow crapes embroidered in self color that covers the

top of the wrap like a deep collar is embroidered directly on the chiffon. The wrap is weighted with yellow silk balls, which fall over a double fold of beige chiffon. It is a model turned out by a Parisian dressmaker.

## WHAT GRANDMA WILL LIKE

SOME grandmothers are always looking for their knitting needles. They are tucked away in an odd drawer or they disappear among a heterogeneous collection which is stored in the work basket.

Crochet hooks and knitting needles, too, have an unpleasant fashion of

KNITTING NEEDLE CASE.

hooking themselves into the skin if met with suddenly in the depth of a work basket. So this useful little case has been designed as a safe repository for these needles and hooks.

It is not too early to begin making a case of this kind for a Christmas gift. Any material may be used for the outside of the case. A good canvas is nice, and on this a design may be worked for the front of the case. Two pieces of card must first be cut the required size. About eight inches

wide and ten inches long is a useful size for general use, but an extra inch must be allowed at each end for a small pocket at the top and bottom. These pockets are caught down at intervals to make slots for the needles.

The cardboard is covered on the outside with the canvas and on the inside with chamols leather, which prevents the needles from rusting. Now a piece of ribbon must be placed across the center of the leather and the slots arranged to correspond with those in the pockets. Cord is then sewed around the edge and the ribbon ties attached in place and the case is finished.

### SAVING BIRDS FROM PET CATS.

People living in the country are following the modern trend toward cultivating the friendship of birds. Cats, as every one knows, are the enemies of birds who build nests in the trees of country homes. Here is a way to circumvent the depredations of felines who at night crawl up the trees in search of the pretty song birds—as they sleep. Take strips of tin and tack them neatly around each tree that holds bird nests. The cats cannot get a hold on the tin, which may be painted brown to make it less conspicuous.

## CHIEF JONES PUTS BAN CARD PLAYING IN SALOONS HERE

Ordinance of 1903 Against Games Is to Be Enforced Strictly.

Cigar Stores Also Come in Scope of Law; May Contest.

After midnight of last night, an ordinance which prohibits card playing in saloons or cigar stores for drinks, cigars or any thing of value was enforced strictly. Chief of Police Jones last night gave instructions to the patrolmen to notify every saloon keeper and cigar merchant that it is against the law to have card games in their places of business and that those who continued to follow this practice would be subject to arrest on a misdemeanor charge.

There is an ordinance in force against shaking dice and now with the enforcing of the other ordinance, gambling in saloons and cigar stores in all forms is under the ban. This last ordinance which Chief Jones has ordered enforced went into effect on January 15, 1903.

Just what will be the outcome of the enforcement of these old ordinances is not known, but it is rumored about the streets that they may be contested in the courts. Chief Jones said last night that he had nothing to do with the passing of the ordinances and that whether he believed in them or not, he was compelled to enforce them. The last paragraph in each of the ordinances states that the chief of police and his officers must at all times diligently enforce the ordinance.

The ordinance which covers card playing in saloons or in cigar stores reads as follows: "The games of 'seven up,' 'poker,' 'draw poker,' 'three card monte,' and all other games and devices played for money or other thing of value, or for checks, credit or other representative of value—not already prohibited or made unlawful by any law of the State of California or former ordinance of the City of Fresno—are hereby prohibited in all saloons, outhouses, stores, or other place of business or in any room or place adjacent to or connected with any place of business of any sort, and in all public places within the City of Fresno."

## Showers Are Predicted to Come Tonight

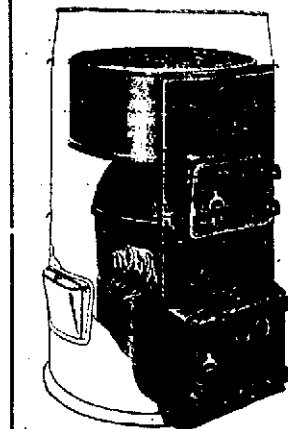

Again, the weather man predicts showers. Telegrams from San Francisco last night said they should be here by tonight. And raisin growers are advised to stack.

The showers predicted for yesterday failed to materialize, when a fresh westerly wind sprang up about daylight and blew all the clouds away. But an unmistakable dampness remained in the clear air, and now, it is predicted that the westerly wind will today swing around to the south, and bring the rain along. The showers, the weather man says, should materialize by evening.

**AGAIN ASKS PAROLE.**  
LEAVENWORTH, Kas., Sept. 25.—John R. Walsh, the former Chicago banker who is seeking parole from the federal prison here, will not know his fate for several days. The federal board of parole met here today but he probably will not be given a hearing before Tuesday.

**My Lungs** "I have coughed and coughed until my lungs are sore and weak." Go at once to your doctor. Do not delay another hour. Ask him all about Ayer's Cherry Pectoral. Then take it or not, as he says. J. C. Ayer & Co., Lowell, Mass.

## A FUEL-SAVING HEATER

The "Progressive" Warm Air Heater gives a maximum of heat for a minimum of fuel. It has an enormous number of square inches of heating surfaces which take all the heat which usually goes with the smoke. It has a patented device for removing ashes quickly. The stove is highly ornamental and the heat can be regulated in the most perfect manner. There are thousands of them in use and all give perfect satisfaction.

## TRAVER POSTMASTER IS JAILED FOR TAKING MONEY

Alleged to Be Over \$1000 Short in His Postoffice Accounts.

Harvey Walker Being Held Under \$3000 Bonds at County Jail.

Harvey C. Walker, postmaster at Traver in Tulare county, was placed under arrest yesterday morning by Deputy United States Marshal Joseph J. Jones and lodged in the Fresno county jail yesterday afternoon shortly before 2 o'clock. Walker is charged with having embezzled \$1114.63 from the money order department at the post office of which he was the head. The alleged embezzling is said to have been going on for the past five or six months but the shortage in the postmaster's accounts was not discovered until September 2, when Post Office Inspector F. M. Trout of Fresno checked up the books.

Walker is alleged to have made a partial confession to the post office inspector in which he admitted that he had appropriated various sums of money to his own use and was unable to replace the money at the end of the month.

The Traver post office has been in charge of Walker for the past eighteen months and he had always been above suspicion. The usual once a year inspection of the books was made on the first of this month by Inspector Trout and it was then discovered that Walker was short in his accounts. A report of this was sent to the United States Post Office department at Washington, D. C., and recently United States Commissioner Cushman of this city was instructed to issue a warrant for the arrest of Walker. Inspector Trout secured the evidence and the arrest was made yesterday morning by the deputy United States marshal.

The government prisoner was brought to Fresno on the noon train and immediately taken to the United States Commissioner's office and held there until the arrival of Commissioner Cushman. The defendant was then arraigned and informed of the charge. He was unable to furnish \$3000 bonds and was lodged in jail. His preliminary examination will be held later.

## AUTOISTS ARE CITED FOR SPEEDING CARS

Jas. Murray and O. M. Thompson Said to Have Raced in Automobiles.

Jas. J. Murray, a Fresno real estate dealer and O. M. Thompson, were cited yesterday afternoon by Patrolman McCall to appear in court and answer to a charge of exceeding the speed limit. Thompson appeared before Police Judge Briggs late yesterday afternoon and said that he was not exceeding the speed limit as he would not run an automobile. His plea of not guilty was not entered by the police magistrate as no warrant had yet been issued.

According to Patrolman McCall the defendants exceeded the speed limit when they crossed Belmont avenue on Blackstone avenue. The patrolman alleges that the machines were being driven at a high rate of speed and that the drivers were racing with each other. He says that he has several witnesses to back up his story. McCall boarded a street car at Belmont avenue and rode to Zapp's park where he overtook the autoists and cited them to appear in court.

Murray is said to have informed the officer that he was not driving his machine faster than eight or ten miles an hour.

## WILL DISMISS SMITHS' CHARGE OF BRIBERY THIS MORNING

Witness for Prosecution Is in Chicago on Business Trip.

Attorneys for Defense Object to Long Continuance of Case.

After District Attorney Denver Church and Attorney M. B. Harria, D. S. Ewing and W. A. Sutherland had argued for over one hour and a half late yesterday in the police court, Police Judge Herbert F. Briggs decided to continue the preliminary examination of A. B. Smith, county tax collector, and Geo. A. Smith, county license collector, charged jointly with bribery, until this morning at 10 o'clock. It is the presumption of every one interested in the case that the charges will be dismissed this morning and the case will be continued for six days and then dismissed. District Attorney Church says that if the bribery case is dismissed it will only mean the filing of a new complaint later when C. W. Finney, auditor for Ringling Brothers' circus, returns to Fresno.

District Attorney Church appeared in the police court yesterday afternoon armed with an affidavit which set forth that Finney was a material witness for the prosecution and that certain allegations could only be proven by his testimony and that the witness was at present out of the state on important business and could not be present to testify at the preliminary hearing. The district attorney then requested that the preliminary hearing be postponed until some future date when the witness for the state would be present.

This the attorneys for the defense seriously objected to, claiming that they were entitled to a speedy hearing, that the defendants were in jail waiting to be given their preliminary examination and that if the examination could not continue, the charges should be dismissed. It was finally mutually decided that the case be continued until this morning.

District Attorney Church informed the court that the hearing of one of the defendants on the charge might be held this morning but that he desired to think the matter over until tomorrow. Church declared that he had used diligence in trying to secure the presence of Finney for the preliminary hearing. He said that he had reached Finney on the telephone and that the circus man had promised to be here Monday, but Sunday he received a telegram stating that he had been called to Arizona. Yesterday, after sending four telegrams to Arizona, it was learned that Finney had been called to Chicago on business.

Attorney Sutherland then informed the court that it was evident that Finney was not coming here to testify after he had promised that he would. Church then declared that Finney would appear in the police court room in less than five weeks.

Sutherland remarked that he would have to see the man there before he would believe it. The attorneys for the defense argued that the preliminary hearing must either be held or the charges dismissed. The court did not consent to allow the defendants to be embarrassed by having the charge hanging over their shoulders waiting for the appearance of a flighty circus man who did not keep his promises.

According to law the presiding magistrate can only continue the preliminary hearing for two days at a time and for a period not to exceed six days. As the district attorney will be unable to have Finney in the state in six days the only presumption is that the case will be dismissed this morning unless one of the Smiths is tried on the bribery charge. The case could be postponed indefinitely with the consent of the attorneys for the defense, but they will not give their consent as they say it is not right for Smith and his son to be hampered with the charge against them.

Church argued as long as the defendants were not confined behind the bars the charge was not a hindrance. The district attorney said that he was willing to have the bail money dismissed and to allow the defendants their liberty on their own recognizance. Attorneys for the defense objected to this and either hold the hearing or dismiss the case.

## SMITH IS RELEASED FROM COUNTY JAIL

E. F. Smith, who was wanted by the authorities in Tulsa county, Okla., on a charge of selling liquor to Indians, was released from the county jail yesterday by Sheriff McSwain after he received a telegram from Sheriff Sutherland advising the Fresno sheriff to take that course. The telegram was very indefinite, simply stating that Smith should be released. It is presumed that the Oklahoma authorities did not care to go to the expense of bringing Smith back to answer to the charge.

Smith was told yesterday to get ready for the trip to Oklahoma. He packed his belongings and departed through the jail door expecting to be taken by an officer. In an officer, he was then informed that the charge there had evidently been dismissed against him as his release had been ordered.

## To Properly Treat Obstinate Wrinkles

"Particularly where wrinkles and furrows are long and deep, the massage devotee is apt to rub too hard and too frequently," says Dr. Limoges. "Such treatment loosens the skin, causes the muscles to sag and aggravates the wrinkled condition—just the opposite result from what she seeks. —Better than massage, or anything else, for the most obstinate wrinkles and crow's feet as well as the finest lines, is a formula well known in France, which American ladies may readily avail themselves of, as you will have no difficulty in procuring the constituents from your druggist. It is this: One ounce powdered salolite in a half pint witch hazel. Bathe the face, neck and hands in this daily. The effect is really marvelous, not only as to wrinkles, but also in case of double chin and baggy cheeks. The application is cooling, soothing, tending to relieve fatigue and insomnia."

## RIVER COMMITTEE WILL MEET TO PLAN WORK THIS EVENING

J. C. Needham Confers With Major Cheney; Plans for Appropriation.

Propose Motion Pictures to Show How Erie Canal Was Made.

To actively start work for the coming fall and winter season in the interest of the improvement of the San Joaquin river, the joint river navigation committee of the Chamber of Commerce and the Traffic Association will meet at 8 o'clock tonight in the room of the latter body. The meeting was called yesterday, just after the receipt of news by wire that Congressman J. C. Needham was in San Francisco conferring with Major Cheney of the United States army engineering corps, in charge of this district. The next step toward river opening is in the hands of Cheney, to an extent, as he is to make a report on the feasibility and advisability of the project, to the interested department.

According to wire advices from San Francisco yesterday, the meeting of Needham and Cheney was a step toward the introduction into the next session of Congress of a bill for the improvement of the river by the federal government. It is further said that Needham and Cheney were to arrange a plan to determine "just what improvements were needed," but does not say that the upper San Joaquin, in which the local committee is interested, was to play any part in the proposed plan. The committee said, "The proposed changes center for the most part upon the diversion of the river around Stockton by a canal to prevent a repetition of the floods which have damaged that city."

However, Needham's visit interested members of the local committee very much yesterday, and interest was added by the fact that he is to be here Saturday, when he is to speak before a meeting of the Commonwealth club.

Secretary F. M. Hill of the committee expects to bring before the meeting a proposition for education in favor of river improvement by means of moving pictures. Recently a film was shown here, depicting work now being done by state money on canals in New York, at immense expense. The difficulties in work presented were very much greater than anything that would be encountered in straightening the kinks of the San Joaquin river and dredging its mud bottom. Rocks have to be blasted out and cut through; ingenious types of dredgers are necessary for special kinds of work; and the whole length of the Erie canal is being completed on either bank. Hill proposes, if the committee wishes, to have this film brought back to Fresno, and exhibited for educational purposes, to show just what is possible in the way of making navigable waterways where they are desirable.

## LITTLE GIRL RUN OVER AND SERIOUSLY HURT BY AUTOMOBILE

Operation Performed on Phillis Elkins; May Be Internally Hurt.

Jumps Suddenly in Front of G. B. Sanford's Car While at Play.

Phillis Elkins, aged 12 years, was run over and very seriously injured at 5:15 o'clock yesterday afternoon by the corner of O and Mariposa streets, by an automobile owned by G. B. Sanford and driven by his son. The girl was badly crushed by the wheels of the car, and after she had been removed to her home, was last evening taken to the Graven sanitarium, where an operation was performed by Drs. A. H. Sweeney and W. L. Adams. They pronounced her condition grave, but declared her exact condition could not be determined for some eighteen hours. At the end of that time it can be known if internal injuries, which are feared, were really sustained.

In the car with the injured girl was J. D. Morgan of this city. According to Morgan, the car was running about seven to eight miles an hour. The girl was playing on the sidewalk with some other children. "Just as the car was about to pass them," said Morgan, "she darted out in front of me, apparently running from a boy who made us to strike her, and evidently not seeing the car at all. It was too late to stop, and the car passed over her."

The girl was picked up by Mrs. Moses Mease, who lives at 1036 Q street. Dr. Sweeney was at once summoned and found she had sustained bad lacerations of the muscles of her back, her teeth were knocked out and she had a deep cut in the groin. At first it was not believed the injury was so serious, but an extensive examination revealed the need for an operation and the possibility that there were serious and possibly internal hurt. She was then removed to the sanitarium and the operation was performed about 10 o'clock last night.

Intense excitement in the neighborhood was caused by the accident, as it was witnessed by a number of people. No report of the affair had been made to the police up to 3 o'clock last evening, when the number of the car was sent in—53778.

## JAPANESE STATESMAN IS NOW AT SEATTLE

SEATTLE, Wash., Sept. 25.—Viscount Tasuku Uchida, the retiring Japanese ambassador to the United States, who is on his way home to become minister of foreign affairs, arrived here today accompanied by his wife and suite. During his stay here the ambassador will be the guest of the chamber of commerce.

# Kutner's

The House That Saves You Money  
1119-1123-T Street  
1801-1819-Mariposa Street

## The New Fall Sweaters

Are Here in Many Styles

- Children's Sweaters, ages 2 to 6 years, high neck, white oxford and cardinal, \$1.00.
- Misses' wool Sweaters, with low collar, two pockets, white and oxford, \$1.95.
- Women's and young women's wool Sweaters, with high neck collar, oxford, white and cardinal. Very fine weave, \$3.50.
- Women's Zig Zag weave with two pockets, oxford and white, \$2.48.

## Charming New Ideas in Trimmed Hats From "Pauline Fornay"

Kutners are pleased to announce that they have secured the agency for the very latest ideas in high class trimmed hats from "Pauline Fornay," the original genius in the millinery world. Pauline Fornay has a style that is distinctive, original and very often daring. She has created a sensation this year with her charming little pokes and "mother goose" effects—particularly pleasing are the hats for young girls and little women. You'll want a "Pauline Fornay" hat this year if you are interested in high style without high price.

## For The Woman Whose Limit is \$25.00 For A Suit

Certain new groups have recently arrived that are of particular importance to the woman who wants to spend no more than \$25.00.

—Jaunty suits of new mixtures and those Rough Brown Serges. Exceedingly fine quality worsteds, serges, some with the new panel skirts, others plainly tailored.

## Blankets and Robes

For the Little Ones

—Pretty robes for baby's cab in conventional and kindergarten pattern, priced at 50c, 85c and \$1.25.

—Wool Eiderdown Robes in white, pink and blue, fast colors, at \$1.50 each.

—Sale reopens at 9:30.

## \$12 FOR SECOND CROP MUSCATS NOW PAID BY WINERIES

In line with early offers made growers of muscat grapes, the wineries are now paying \$12 a ton on contracts for second crop goods. Since the breaking of the "wine war" there has been a reluctance maintained by wine makers on prices to growers, though it is said this end of the business has not been affected.

It is announced that the Elsen winery, which was destroyed in part by fire last week, will not take goods contracted for, as the crushing plant was the part lost and it will be able to handle no goods this season.

And photo supplies at Baker & Co. Phone Main 57.

S. B. CATARRH CURE Cures catarrh, asthma, etc., at Smith Bros.
